ANNEXURE-I-Questionnaire

Q.1. Please, Write your name, Your Company Email Id & Organization Name?

.....

Q.2. Write your Designation?

.....

Q.3. Select your age range?

A] 18 -22 B] 22-26 C] 26-30 D] 30-34 E] 35 and above

Q.4. Either your Testing team is using any Automation Tool for testing Web Application

A] Yes B] No

Q.5. What do you think weather the automation tools are required to Test Web Application effectively?

A] Most Effective B] Effective C] Moderate D] Least Effective E] Not Effective

Q.6. Which Automation Tool your Company is using for testing Web Application, Please provides the name?

A] Open Source-..... B] Vendor Specific.

Q.7. Either your organization having separate testing team to test the Web Application?

A. Yes B. No

Q.8. What are the challenges & problems while Testing Usability of web application? Please rank these issues with their critical level.(1=Lowest and 5=Highest)

Challenges	Rating				
	1	2	3	4	5
1. Comfortability to use UI					
2. Different display resolution and screen size					
3. Testing 100% user interface is possible.					
4. Printing of UI of web application					
5. Separate usability testing team is required.
