

List of Tables

Table No.	T i t l e	After Page No.
1.	Summary of pollen morphological features in <u>Tribulus terrestris</u> L.	.. 53
2.	Nitrogen content of leaf and seed of <u>Tribulus terrestris</u> L.	.. 56
3.	Paper chromatographic separation of flavonoid glycosides from leaves and seeds of <u>Tribulus terrestris</u> L. naturally growing in Kolhapur region.	.. 58
4.	TLC separation of flavonoid glycosides from the leaves and seed of <u>Tribulus terrestris</u> L. naturally growing in Kolhapur region.	.. 60
5.	Paper chromatographic separation of flavonoid glycosides from leaves and seed of <u>Tribulus terrestris</u> L. naturally growing in Solapur region.	.. 62
6.	TLC separation of flavonoid glycosides from seed of <u>Tribulus terrestris</u> naturally growing in Solapur region.	.. 62
7.	TLC separation of flavonoid glycosides from dry seed of <u>Tribulus terrestris</u> naturally growing in Satara region.	.. 63
8.	Paper chromatographic separation of flavonoid glycosides exhibiting the foliar spray of Mn and Zn combination in <u>Tribulus terrestris</u> L. leaf and seed growing in Kolhapur region.	.. 66
