**DATA      ANALYSIS**

---

### III.1 DATA ANALYSIS

This type of sample is a stratified random sample. Sample is selected from each zone. The farmers are selected so that 70% are having less than 2 acres, 20% are having sugarcane between 2 to 4 acres and 10% are having more than 4 acres. The sample taken is 1.5% of total population of 65.72. 'A' producer members. The total population of the member farmer is divided into 9 agricultural zone of factory area from each zone. 1.5 sample is taken. The total sample taken is 100 member farmers. The figure 100 is taken in order to simplify the calculation. Villages from each zone are selected on Lottery System, Members are selected from sequential list. Opinions are taken of the members for 5 years. The period is selected of 10 years. i. e. 1973-74 to 1983-84, necessary information are taken from annual reports, other publication made by the factory i.e. secondary data, for calculation cost of cultivation information of 1983-84 is used.

9.	5	136	27	29,790	5,958	6	139	23	26,610	4,435	
<b>Total</b>	<b>56</b>	<b>1,287</b>	<b>22 M.T.</b>	<b>2,91,205</b>	<b>5,200</b>	<b>44</b>	<b>922</b>	<b>20</b>	<b>184,480</b>	<b>4,124</b>	<b>Average Production.</b>
e.g. (1)		<u>Total cost</u>	<u>2,91,205</u>	<u>= 5,200</u>							<u>Cost of sugarcane cultivation per acre (plantation)</u>
		<u>Total cultivators</u>	<u>56</u>								

Each farmer has given information about one acre from in each division sample-wise total cost and total production, average cost and average production is calculated.

(2)  $\frac{\text{Total Cane Production}}{\text{Total cultivations}} = \frac{1,287}{56} = 22 \text{ M.T. Sugarcane production per acre}$   
(plantation)

(3) Average cost of production per acre  
in Khodava is Rs. 4,124.

**TABLE NO. 12****NET PROFIT****AVERAGE COST OF PRODUCTION PER ACRE**

Sr.No.	Item	Amount (Rs.)
1.	Ratton of Khodava	4,124
2.	Plantation	5,200
3.	Sugarcane production	22 M. T.

Factory has paid Rs. 255 per M. T. in 1983-84.

The members get the income in the following way :

Ratton	-	Income	5,610
		Cultivation Cost	4,124
		Net Income .....	1,476
			=====
Plantation	-	Income	5,610
		Cultivation cost	5,200
		Net Income .....	0,410
			=====
