

ACKNOWLEDGEMENT

In this research work, I have been immensely benefitted by my visits to the District Industrial Centre, Kudal, Office of Maharashtra State Finance Corporation, Kudal and the branch offices of the concerned commercial banks at Kudal. The discussions with the officials and non-officials in the course of these visits were beneficial in the sense that they gave me an insight into the problem of industrial sickness faced by the units located at M.I.D.C. Kudal.

It is a pleasure to acknowledge here the assistance extended to me by different persons in the completion of my study.

My deep sense of gratitude and sincere thanks are due to my Guide, Dr. R.M. Tungare, for his invaluable and inspiring guidance at every stage of this work. I shall remain indebted to him for ever.

I am extremely thankful to Prof. (Dr.) A.D. Shinde, the Director, Chhatrapati Shahu Central Institute of Business Education and Research, Kolhapur and Principal (Dr.) P. Subba Rao, of the said Institute for providing me the necessary facilities to carry out the present study.

My thanks are also due to all the entrepreneurs of the units selected for sample survey in my research area who gave me free and frank responses during the course of my collection of the primary data.

I would also record my heart-felt thanks to Shri P.S. Lad, the Chairman and all members of K.M.S.P. Mandal Kudal and Kurla for their encouragement from time to time. I also thank Prof. A.G. Pandurkar, Prof. P.N. Kulkarni and all the staff members of Sant Rawool Maharaj Mahavidyalaya, Kudal for their constant help and encouragement in the process.

I owe a debt of gratitude to my parents and brothers for their unending support and encouragement. I must acknowledge the co-operation and forbearance of my wife and beloved son.

Finally I thank Mr Chopade for his co-operation.

Kolhapur
