CHAPTER	TITLE	PAGE
I	INTRODUCTION	
	(i) Aim of the present work	- 1
	(ii) Previous work	- 2
	(iii) Area under study	- 5
II	THE WESTERN GHATS	
	(i) Distribution	- 7
	(ii) Ecological features	- 10
	(iii) Geology	- 14
	(iv) General aspects of the vegetation	- 15
	(v) The important localities ideal for fern collection.	- 19
III	COLLECTION OF MATERIAL AND PRESERVATION	
	Description of the Localities visited.	- 21
IV	ENUMERATION OF THE FERNS FROM WESTERN GHATS.	
	(i) Key to the classes of the division Pteridophyta	- 31
	(ii) Key to the sub-classes of the class Filicopsida.	- 32
	(iii) Key to the orders of the sub-class Filicidae.	- 33
	(iv) Key to the families of the order Dicksoniales.	- 35
	(v) Key to the families of the order Davalliiales.	- 35
	(vi) Key to the families of the order Aspidiales.	- 35

CHAPTER	TITLE	PAGE
IV (contd.)	(vii) Key to the families of the order Pteridales.	- 36
	(viii) Key to the families of the order Salviniiales.	- 37
	(ix) Family Ophioglossaceae	- 38
	(x) Family Schizaeaceae	- 43
	(xi) Family Pteridaceae	- 45
	(xii) Family Sinopteridaceae	- 50
	(xiii) Family Gymnogrammaceae	- 53
	(xiv) Family Dentadiaceae	- 58
	(xv) Family Lindsaeaceae	- 60
	(xvi) Family Davalliaceae	- 62
	(xvii) Family Oleandraceae	- 63
	(xviii) Family Hymenophyllaceae	- 65
	(xix) Family Cyatheaceae	- 67
	(xx) Family Thelypteridaceae	- 69
	(xxi) Family Aspleniaceae	- 74
	(xxii) Family Athyriaceae	- 76
	(xxiii) Family Aspidiaceae	- 80
(xxiv) Family Lomariopsidaceae	- 85	
(xxv) Family Blechnaceae	- 87	
(xxvi) Family Polypodiaceae	- 89	
V	DISCUSSION	- 96
