All these problems are not without solution, But what is required is planning, Planning in all activities of agriculture be scientifically done. A group of experts, leaders, social workers, education institutions, sugar factory must come together to plan and educate agriculture and farmers respectively in a proper manner. Specially sugar factory has a greater scope to manage all such activities, As it is a leading co-operative giant in the sub-region, it may involve all forces of planning and implementation in a effective manner.
