

CONTENTS

<u>Chapter</u>	<u>Title</u>	<u>Page</u>
	INTRODUCTION	... 1
I	REVIEW OF LITERATURE	... 11
	A. Effect of pesticides on germination and growth	... 13
	B. Effect of pesticides on enzyme activity	... 15
	C. Effect of pesticides on chromosomal behaviour	... 19
	D. Summary of workdone and scope of present investigation	... 25
II	MATERIALS AND METHODS	... 28
	A. About the pesticides used in the present investigation	... 29
	1. Metacid-50	... 29
	2. Dimecron	... 29
	B. Procurement of seeds	... 31
	C. Pesticidal treatment	... 31
	D. Hydrolytic enzymes	... 32
	1. α -Amylase	... 32
	a) Extraction	... 32
	b) Assay	... 32
	2. Peroxidase	... 32
	a) Extraction	... 32
	b) Assay	... 33
	3. Catalase	... 33
	a) Extraction	... 33
	b) Assay	... 33
	4. Acid phosphatase	... 34
	a) Extraction	... 34
	b) Assay	... 34
	5. Protease	... 34
	a) Extraction	... 34
	b) Assay	... 35

<u>Chapter</u>	<u>Title</u>	<u>Page</u>
	E. Proline	... 35
	1. Material	... 35
	2. Estimation of proline	... 36
	a) Preparation of acid ninhydrin	... 36
	F. Mitotic aberrations	... 37
	1. Material	... 37
	2. Squash preparation	... 37
	a) Preparation of aceto-orcein	... 37
III	RESULTS AND DISCUSSION	... 38
	A. Germination percentage, rate of germination and root shoot length	... 39
	B. Morphological abnormalities	... 42
	C. Effect of pesticide treatment on hydrolytic enzymes.	... 47
	1. α -Amylase	... 47
	2. Peroxidase	... 52
	3. Catalase	... 58
	4. Acid phosphatase	... 63
	5. Protease	... 68
	D. Effect of Metacid and Dimecron on proline content	... 73
	E. Effect of Metacid and Dimecron on mitotic chromosomal behaviour	... 80
IV	SUMMARY AND CONCLUSION	... 86
	BIBLIOGRAPHY	... 92
	PUBLICATIONS	... 112
