C O N T E N T S

Chapter	T i t l e	Page
I	INTRODUCTION	... 1
II	MATERIALS AND METHODS	
A.	Materials :	... 7
	1. Soil culture	... 7
B.	Methods:	... 8
	1. Growth analysis	... 8
	2. Organic constituents :	
	a) Moisture content	... 8
	b) TAN	... 8
	c) pH	... 9
	d) Chlorophylls	... 9
	e) Carbohydrates	... 9
	f) Polyphenols	... 11
	g) Proline	... 12
	h) Electrical conductivity	... 12
	3. Enzyme studies	
	a) Hydroxyperoxidases:	... 13
	i) Peroxidase	... 13
	ii) Catalase	... 13

Chapter	Title	Page
II. B. 3.	b) Acid phosphatase	14
	c) Nitrate reductase	14
	d) Determination of enzyme proteins.	15
	4. Inorganic constituents :	15
	a) Na^+ , K^+ and Ca^{2+}	16
	b) Phosphorus	17
	c) Iron, Manganese, Magnesium Cobalt, Copper, Cadmium, Nickel, Lead and Zinc	17
III	RESULTS AND DISCUSSION	
A.	Effect of water stress and NaCl Salinity on Growth and Development	18
B.	Effect of Water Stress and NaCl Salinity on Organic constituents :	
	1. Moisture content	30
	2. Acidity status	33
	3. Chlorophylls	38
	4. Carbohydrates	44
	5. Polyphenols	52
	6. Proline	54
	7. Electrical conductivity	60

Chapter	Title	Page
III. C.	Effect of Water Stress and NaCl	
	Salinity on Some Enzyme Systems :	
	1. Hydroxyperoxidases	61
	2. Acid phosphatase	68
	3. Nitrate reductase	72
D.	Effect of Water Stress and NaCl	
	Salinity on Inorganic Nutrition :	
	1. Sodium	79
	2. Potassium	86
	3. Calcium	91
	4. Phosphorus	95
	5. Magnesium	97
	6. Micronutrients :	
	a) Iron	99
	b) Manganese	104
	c) Cobalt	105
	d) Copper	107
	e) Cadmium, Nickel and Lead	109
	f) Zinc.	111
IV.	SUMMARY AND CONCLUSIONS	114
	LITERATURE CITED.	122
