CHAPTER	TITLE	PAGE NO.
	INTRODUCTION	... 1
I	REVIEW OF LITERATURE	... 6
	1. Factors Affecting Germination	... 7
	A) Internal Factors	... 8
	i) Viability and vigour	... 8
	ii) Dormancy	... 10
	iii) Hormonal regulation	... 14
	B) External Factors	... 17
	i) Water	... 18
	ii) Aeration	... 21
	iii) Light	... 23
	iv) Temperature	... 27
	2. Biochemical Events during germination	... 29
	3. Germination under Saline Conditions	... 36
	A) Salinity problem	... 36
	B) Germination under saline conditions	47
	4. Scope of Present Investigation	... 52
	A) Plants selected	... 54
	i) <u>Phaseolus aconitifolius</u> Jacq.	56
	ii) <u>Crotalaria juncea</u> L.	... 59

....

CHAPTER	TITLE	PAGE NO.
II	MATERIAL AND METHODS	65
	1. Material	65
	2. Methods	66
	A) Moisture	67
	B) Carbohydrates	67
	C) Proline	69
	D) Enzymes	70
	i) Peroxidase	70
	ii) Catalase	71
	iii) Amylase	72
	iv) Acid phosphatase	73
	v) Nitrate reductase	74
III	RESULTS AND DISCUSSION	75
	1. Germination	75
	2. Seedling Development	90
	3. Moisture and Dry matter contents	111
	A) Moisture content	111
	B) Dry matter content	115
	4. Carbohydrates	119
	5. Proline	128
	6. Enzymes	136
	A) Peroxidase	136
	B) Catalase	142
	C) Amylase	147
	D) Acid Phosphatase	154
	E) Nitrate reductase	158
