SUGGESTIONS

- (1) Power-loom workers should be given security of their services.
- (2) The facility of training or apprenticeship should be provided for the newly appointed worker.
- (3) Power looms were run in the owners house. But it should be creates some problems. So Govt. should try to provide the Industrial Estate facility to the owners of power-loom.
- (4) Owner should make provisions to stop the sound pollution.
- (5) Centre for the power loom industry should be formed. It should run the degree/Diploma course in various skills required for different process in power loom industry.
- (6) Worker should get medical facility in very low charge.
- (7) In Vita city there is a need of other processing works for produceing finished cloth.
- (8) The power loom weavers associations and power loom workers unions should take initiative in forming Houseing societies for workers. They should seek the help and co-operatives from the local Municipalty for the same.
- (9) Educational facility should be provided to the workers Childern in worker colony.

- (10) Establish the social clubs for the organisation and social equity. Such club should try to avoid drinking or any other dangerous habits which are harmful to the human health. And also try to avoid the blind beliefs.
- (11) A co-operative institution should be established to provide raw material, finance, sales services and facilities the selling functions. Such Institution should try to remove the monopoly of the power loom owner.
- (12) -- Old and out dated power loom should be replaced.
- (13) Out dated looms and power shortage creates loss to the workers as well as owner. So some sort of alternate arrangement should be made.
- (14) Power-loom workers and owners did not come together at any time. Some misunderstanding is observed .So try to arrange a kind of social institution which should try to gather them freely and frankly.
- (15) Rough cloth is produced at Vita. But further processes are not available so Govt. or any other organisation should try to provide or start that process in Vita.
- (16) Owner co-operative societies were purchasing yarn and sold to their member. But they won't purchase rough cloth. So they sell their rough cloth at various market. But such condition is dangerous. Govt. should try to provide market for the power-loom cloth.
