

CONTENTS

C O N T E N T S

Chapter	Title	Page
I	INTRODUCTION	1
II	MUTAGENS AND THEIR MODE OF ACTION -	
	A. Introduction	4
	B. Causes and types of changes of hereditary material -	
	1 General causes of genetic alterations	6
	2 Types of genetic alterations	7
	C. Primary DNA alterations and their genotypic and phenotypic consequences -	8
	1 Nonhereditary DNA alterations	9
	2 Mutagenic DNA alterations	9
	3 Inactivating DNA alterations	9
	D. Effect of different agents on DNA and chromosomes	10
	1 Ionizing radiations	11
	2 Alkylating agents	12
III	A BRIEF ACCOUNT ABOUT SAFFLOWER -	
	A. Geographic origin	14
	B. Distribution area and production	14
	C. Climate and soil	14
	D. Cultivation	15
	E. Harvesting and yield	16
	F. Botany, genetics and morphology.	17
	G. Varieties	18
	H. Products and uses	18

Chapter	Title	Page
IV	GERMINATION STUDY -	
	A. Rate of germination and LD ₅₀	: 21
	1 Introduction	: 21
	2 Material and methods	: 22
	3 Results and discussion	: 23
	B. Enzymes of germination	: 27
	1 Introduction	: 27
	2 Material and methods	: 29
	3 Results and discussion	: 30
V	MORPHOLOGICAL AND PHYSIOLOGICAL PARAMETERS -	
	A. Introduction	: 33
	B. Material and methods	: 34
	1 Morphological parameters	: 34
	a Growth parameters	: 34
	b Leaf area	: 35
	c Morphological peculiarity	: 35
	d Pollen fertility	: 35
	2 Physiological parameters	: 35
	a Chlorophylls	: 35
	b Chlorophyll stability index	: 35
	c Carbohydrates	: 36
	d Nitrogen	: 36
	C. Results and discussion	: 36
	1 Morphological parameters	: 36
	a Growth parameters	: 36
	b Leaf area	: 41
	c Morphological peculiarity	: 44
	d Pollen fertility	: 50

Chapter	Title	Page
	2 Physiological parameters	: 52
	a Chlorophylls	: 52
	b Chlorophyll stability index	: 53
	c Carbohydrates	: 55
	d Nitrogen	: 59
VI	PHOTOSYNTHESIS -	
	A. Introduction	: 62
	B. Material and methods	: 63
	C. Results and discussion	: 64
VII	SUMMARY AND CONCLUSIONS -	
	A. Summary	: 69
	B. Conclusions	: 70
	BIBLIOGRAPHY	: 74
	STATEMENT - I	: 82
	STATEMENT - II	: 83
