Right at the outset I would like to express my deep sense of gratitude to Dr.R.B. Dewasthalee, Reader, Department of Education, Shivaji University, Kolhapur, under whose able guidance I completed this dissertation. It was because of him that I undertook this work which otherwise would have ended in the fashion of a Quixotic adventure, had he not enlightened me from time to time. Indeed, he spared no pains in guiding me and to make student like me work and work methodically speaks volumes of not only his abilities as a teacher but also of his tremendous patience. I feel I was remarkably lucky and singularly fortunate to work under him.

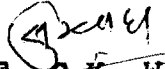

I am thankful to the head masters of the high schools for making available all the necessary facilities for conducting the study.

I am thankful to the teachers for helping me in constructing and administering the tests.

I am thankful to the students in the sample for attending the tests and responding positively.

I am also thankful to the authors of the reference books given in the bibliography.

I would also like to thank Mr.Phadke M.V. for typing this dissertation accurately and in very short time.
