

LIST OF TABLES

Chapter	Table	Title	After Page
	1.	Major organic and inorganic constituents in grain of some improved varieties of ragi.	35
	2.	Effect of sodium chloride salinity on germination of ragi (<u>Eleusine coracana</u>) seeds.	62
	3.	Effect of sodium chloride salinity on seedling growth and moisture content of ragi (<u>Eleusine coracana</u>)	63
	4.	Effect of boron treatment on treatment on germination of ragi (<u>Eleusine coracana</u>) seeds	73
	5.	Effect of boron treatment on seedling growth and moisture content of ragi (<u>Eleusine coracana</u>)	75
	6.	Effect of PEG induced water stress on germination of ragi (<u>Eleusine coracana</u>) seeds	87
	7.	Effect of PEG induced water stress on seedling growth and moisture content of ragi (<u>Eleusine coracana</u>)	88
