

LIST OF FIGURES

Figure	Title	After Page
1.	Habit of <u>Leucaena leucocephala</u> (L.) de.wit. (one year old)	38
2.	Close up of <u>Leucaena leucocephala</u> (L.) de.wit. showing branching, compound leaves and pods. ...	38
3.	Forest types of India. ...	12
4.	Forest types of Maharashtra ...	15
5.	Effect of chlorides of calcium, potassium, sodium and sodium carbonate on Germination of seeds of <u>Leucaena</u> Var. Local	115
6.	Effect of sodium sulphate, thiourea, Ascorbic acid and polyethylene glycol on germination of <u>Leucaena</u> Var. Local.	115
7.	Effect of chlorides of calcium, potassium and sodium carbonate on Germination of seeds of <u>Leucaena</u> Var. K8.	115
8.	Effect of sodium sulphate, thiourea, Ascorbic acid and polyethylene glycol on germination of seeds of <u>Leucaena</u> Var. K8 ...	115
9.	Effect of chlorides of Calcium, Potassium, Sodium and Sodium carbonate on germination of seeds of <u>Leucaena</u> var. K.28 ...	115
10.	Effect of sodium sulphate, thiourea, Ascorbic acid and polyethylene glycol on germination of <u>Leucaena</u> Var. K28.	115
11.	Effect of some salts, ascorbic acid, thiourea and PEG on <u>Starch</u> levels in germinating seeds of <u>Leucaena</u> Varieties.	126

Figure	Title	After Page
12	Effect of some salts, ascorbic acid, thiourea and PEG on <u>Carbohydrate</u> levels in germinating seeds of <u>Leucaena</u> varieties. ...	126
13	Effect of some salts, ascorbic acid, thiourea and PEG on <u>Proline</u> levels in germinating seeds of <u>Leucaena</u> varieties. ...	129
14	Effect of some salts, ascorbic acid, thiourea and PEG on <u>Soluble sugar</u> levels in germinating seeds of <u>Leucaena</u> varieties. ...	138
