

LIST OF FIGURES

Chapter	Figure	Caption	After Page.
I	1.	Effect of DES on germination and survival percentage of <u>C. juncea</u> Linn. (M_1 generation)	39
I	2.	Germination of <u>C. juncea</u> DES treated (M_1 gene.)	41
I	3.	Tricotyledonary seedling of <u>C. juncea</u> (Control, M_1 gene.)	41
I	4.	Tricotyledonary seedling with slight abnormal shape of cotyledons (0.2% DES, M_1 gene.)	42
I	5.	Apical portion with crumpled leaves (0.2% DES, M_1 gene.)	42
I	6.	Leaves showing chimara, dicotamy and wavy margin (0.2% DES, M_1 gene)	43
I	7.	Leaf with chimeric condition (0.2% DES, M_1 gene.)	43
I	8.	Leaf with chimeric condition (0.2% DES, M_1 gene.)	44
I	9.	Leaves showing chimara, dicotamy and wavy margine (0.2% DES, M_1 gene.)	44
I	10.	Effect of DES on growth rate of <u>C. juncea</u> (M_1 gene.)	47
I	11.	Effect of DES on growth rate of <u>C. juncea</u> (M_2 gene.)	47
I	12.	Effect of DES on growth (Height) (M_1 gene.)	48
I	13.	Effect of DES on growth (Height) (M_2 gene.)	48
I	14.	Effect of DES on nitrogen content of <u>C. juncea</u> (M_1 gene.)	56
I	15.	Effect of DES on nitrogen content of <u>C. juncea</u> (M_2 gene.)	57

Chapter	Figure	Caption	After page.
II	16	Effect of $\sqrt{\text{V}}$ -irradiation on germination and survival percentage of <u>C. juncea</u> (M_1 gene.)	76
II	17	Effect of $\sqrt{\text{V}}$ -irradiation on germination of <u>C. juncea</u> (M_1 gene.)	78
II	18	Seedling with two radicles (40 KR, M_1 gene.)	78
II	19.	Leaf with incision (20, KR, M_1 gene.)	79
II	20.	Leaf with constriction (20 KR, M_1 gene.)	79
II	21.	Leaf with broad apex and dicotamy nature (40 KR, M_1 gene.)	80
II	22.	Effect of $\sqrt{\text{V}}$ -irradiation on growth rate of <u>C. juncea</u> (M_1 gene.)	83
II	23.	Effect of $\sqrt{\text{V}}$ -irradiation on growth (Height) M_1 gene.	84
II	24.	Effect of $\sqrt{\text{V}}$ -irradiation on nitrogen content of <u>C. juncea</u> (M_1 gene.)	88
