

ACKNOWLEDGEMENT

It is a great pleasure to the investigator to **express** his deep sense of gratitude for the constant co-operation and inspiration that he has received from the Principal, B.J. Dalvi, Ex-principal Mr.M.G. Patil, Vice Principal Shri N.N.Savant of Azad College of Education, Satara.

The major share, of course, goes to my guide Dr. K. D. Gaikwad. He has always guided at all those stumbling blocks and critical moments in this period and showed me the right direction. It was because of his implicit and valuable guidance that I could do this work. The penetrating questions he asked made me aware of what a researcher needs to possess.

Thanks are due to Prof.Dr. M.L.Jadhav, Shri Kharat S. A. for their remarkable suggestions and untiring help for the completion of this work.

The experiment was conducted in Azad College Of Education, Satara. I would like to record my hearty gratitude to the principal M.G.Patil, Principal B.J.Dalvi for their permission to conduct the experiment and making all the resources available for the successful conduct and completion of the experiment.

I thank my colleagues Prof. Dhanwade N. D., Prof.Vhanabatte R.B., Prof. Nannar R.K. for their most willing and devoted efforts. They worked

as supervisors, held frequent discussions, assisted in developing instructional material and making arrangements for the experiments. Without their help it would have been altogether a difficult task to complete the work in the specified time.

My thanks are due to other senior colleagues Prof. D.N.Desai, Prof. N.N.Sawant, Prof. Dr. P.A.Nikam, Prof. K. J. Pawar for their valuable suggestions for developing observation schedule. He is also thankful to all his teaching and non-teaching members of the staff who extended all along their heartiest co-operation in completing this work.

In formative period of this work, I had a privilege to discuss the work with the experts Prof. Dr.S.R.Rayate, Nashik, Prof. Dr. M.G. Nawale, Pune. I therefore owe my special debt to them.

I owe my gratitude to the Headmasters of Panchwad, Varye, Umbraj and Kashil Schools for making available their schools for experiment.

It would be a kind of sheer ingratitude if I forget it to thank my dear and painstaking student teachers who were activity involved in this model.

The help offered by my wife Sau.Vidya in checking drafts and reading material can not be forgotten. At the same time I simply can't forget the great help given by my new born baby 'Yashada'.

A particular word of thank also goes to Mr. Makrand Apsingakar, Satara, for doing neat and systematic and practically errorless typing of this report in a short period of time.

Thanks to all who extended their valuable help in completing this dissertation in time.

Place : SATARA
