

## LIST OF FIGURES

Chapter	Figure	Title	After page
I	1a	<u>Caesalpinia crista</u> L.- flowering and fruiting twig. ... ..	24
	1b	<u>Caesalpinia crista</u> L. -habitat. ...	24
II	2a	<u>Caesalpinia crista</u> L. plant in association with <u>Acanthus ilicifolius</u> . ... ..	26
	2b	<u>Caesalpinia crista</u> L. plant in association with <u>Derris trifoliata</u> . ... ..	26
III	3a	Experimental site. ... ..	49
	3b	Floating disseminules of <u>Caesalpinia crista</u> L. on water under laboratory conditions in contrast to seeds. ...	49
	4	Buoyancy test of disseminules of <u>Caesalpinia crista</u> L. in sea water. ...	51
	5	Germination performance of <u>Caesalpinia crista</u> L. seeds presoaked in sea water.	53
	6a	Effect of soaking of <u>Caesalpinia crista</u> L. pods in sea water, on seedling performance. ... ..	56
	6b	Dimorphic seeds of <u>Caesalpinia crista</u> L.	56
	7	Germination performance of <u>Caesalpinia crista</u> L. seeds under saline conditions.	66
	8	Sodium contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	71
	9	Chloride contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	82
	10	Potassium contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	89

Chapter	Figure	Title	After page
III	11	Potassium :Sodium ratio in different parts of <u>Caesalpinia crista</u> L.during different seasons. ... ..	92
	12	Calcium contents in different parts of <u>Caesalpinia crista</u> L. during diferent seasons. ... ..	95
	13	Magnesium contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	101
	14	Phosphorus contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	104
	15	Iron contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	109
	16	Mangnese contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	115
	17	Zinc contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	120
	18	Copper contents in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	124
	19	<u>Caesalpinia crista</u> L. plant showing some senescent leaves. ... ..	127
	20	Changes in inorganic constituents (% over green leaves) during senescence of <u>Caesalpinia crista</u> L. leaves. ...	127
	21	Moisture percentage in different parts of <u>Caesalpinia crista</u> L. during different seasons. ... ..	129
	22	Carbohydrate fractions in different parts of <u>Caesalpinia crista</u> L. ... ..	135

---

Chapter	Figure	Title	After Page
III	23	Total nitrogen and free proline content in different parts of <u>Caesalpinia</u> <u>crista</u> L.                   ...           ...           ...	139
	24	Mineral contents of seeds of <u>Caesalpinia</u> <u>crista</u> L.                   ...           ...           ...	152
