

LIST OF FIGURES

FIGURE NO.	TITLE	AFTER PAGE
1	Schematic representation of potassium dynamics in the soil	6
2	Scheme of membrane-located ATPase-driving K^+ carrier transport. Facilitated K^+ diffusion and carrier mediated NO_3^- uptake	13
3	Schematic overview of the relevant plasma membrane K^+ transporting mechanisms in a typical root cell	15
4	Effect of potassium deficiency on potassium content in <i>Amaranthus</i> species	67
5	Effect of potassium deficiency on sodium content in <i>Amaranthus</i> species	68
6	Effect of potassium deficiency on calcium content in <i>Amaranthus</i> species	70
7	Effect of potassium deficiency on Magnesium content in <i>Amaranthus</i> species	73
8	Effect of potassium deficiency on Phosphorus content in <i>Amaranthus</i> species	76
9	Effect of potassium deficiency on Iron content in <i>Amaranthus</i> species	78
10	Effect of potassium deficiency on Manganese content in <i>Amaranthus</i> species	80
11	Effect of potassium deficiency on Zinc content in <i>Amaranthus</i> species	82
12	Effect of potassium deficiency on Photosynthetic pigments in leaves of <i>Amaranthus</i> species	85

FIGURE NO.	TITLE	AFTER PAGE
13	Effect of potassium deficiency on titrable acid number in leaves of <i>Amaranthus</i> species	90
14	Effect of potassium deficiency on carbohydrate content in leaves of <i>Amaranthus</i> species	92
15	Effect of potassium deficiency on total polyphenol in leaves of <i>Amaranthus</i> species	95
16	Effect of potassium deficiency on proline content in leaves of <i>Amaranthus</i> species	98
17	Effect of potassium deficiency on glycinebetaine content in leaves of <i>Amaranthus</i> species	101
18	Effect of potassium deficiency on nitrogen content in leaves of <i>Amaranthus</i> species	103
19	Effect of potassium deficiency on enzyme acid phosphatase and nitrate reductase activity in leaves of <i>Amaranthus</i> species	105
20	Effect of potassium deficiency on enzyme peroxidase and catalase activity in leaves of <i>Amaranthus</i> species	111
