

ACKNOWLEDGEMENTS

I take an opportunity to express my sense of gratitude and deep reverence to my teacher and Guide Dr.L.J. Bhosale, M.Sc.,Ph.D. for suggesting me this topic of my interest. I doubt this piece of work would not have been completed without her help. I am very much thankful for her valuable guidance.

I will fail in my duty if I do not express my sincere gratitude to late Dr. G. V. Joshi, who was a constant source of inspiration to the students of Botany. Similarly the encouragement given by Dr. U.K. Kulkarni, Head of the Botany Department, Shivaji University, Kolhapur, has enabled me to complete this work.

I could not have completed this piece of work but for the kind help from Dr. B.A. Patil, Dr. P.D. Chavan and Dr. B.A. Karadge. I extend my thanks to Shri. Deshmukh for his help in Photography, Miss Sunita Bawachkar, Shri. A.D. Patil for their valuable help and co-operation.

I must mention thanks to all Research Students, Teacher Fellows, my colleagues, teaching staff and non-teaching staff of this Department.

My special thanks are due to Shri. S.U. Bhise, my uncle, without whose help it would have been difficult for me to submit this piece of work in this shape. Lastly but not the least, I must mention the name of Mr. Nimbalkar who was kind enough to spare his services in binding and also in printing work in this Dissertation.

Miss S P Kulkarni

MISS S.P. KULKARNI
