

## **CONTENTS**

---

---

(i)

CHAPTER	TITLE	PAGE
	<b>INTRODUCTION</b>	1
<b>I</b>	<b>REVIEW OF LITERATURE</b>	5
	1. Introduction	6
	2. Taxonomy of Genus <i>Cephaleuros</i>	6
	3. Occurrence and Disease Caused by <i>Cephaleuros</i>	7
<b>II</b>	<b>MATERIALS AND METHODS</b>	11
	1. Survey	12
	2. Disease Intensity	12
	3. Moisture Content	12
	4. Stomatal regulation	12
	5. Leaf Anatomy	12
	6. Organic Constituents	13
	a) Chlorophylls	13
	b) Carotenoids	14
	c) Nitrogen	14
	i) Preparation of microsalts	15
	ii) Preparation of Nessler's reagent	15
	iii) Preparation of standard ammonium sulphate solution	15
	d) Polyphenols	15
	i) Preparation of Folin Denis reagent	16
	e) Sugars	16
	7. Inorganic Constituents	18
	a) Acid digestion and mineral analysis	18
	b) Phosphorus	18
	8. Chromatography of Polyphenols	18
	a) Preparation of extract	18
	b) Unidimensional paper chromatography of Polyphenols.	19

(ii)

<b>CHAPTER</b>	<b>TITLE</b>	<b>PAGE</b>
	9. Chromatography of amino acids and organic acids	19
	a) Preparation of extract	20
	b) Unidimensional paper chromatography	20
	10. Polyphenol oxidase	20
	a) Extraction	21
	b) Assay	21
	11. Phenylalanine ammonia lyase	21
	a) Extraction	21
	b) Assay	22
	12. Algal Culture	22-23
<b>III</b>	<b>RESULTS AND DISCUSSION</b>	24
	1. Survey and Disease Intensity	25
	2. Morphology and Anatomy	36
	3. Dry Weight Content	39
	4. Stomatal Regulation	41
	5. Organic Constituents	44
	a) Chlorophylls	44
	b) Carotenoids	50
	c) Nitrogen	53
	d) Polyphenols	53
	e) Carbohydrates	59
	6. Inorganic Constituents	64
	7. Polyphenol Oxidase	72
	8. Phenylalanine Ammonia Lyase	75
	9. Chromatography of Amino Acids, Organic Acids and Polyphenols	77
	10. Algal Culture	85-87
<b>IV</b>	<b>SUMMARY AND CONCLUSIONS</b>	90
	<b>BIBLIOGRAPHY</b>	95
