Chapter	T i t l e	Page
	i) List of Tables	
	ii) List of Figures	
	iii) List of Plates	
1	INTRODUCTION	1
2	MATERIAL AND METHODS	7
3	RESULTS AND DISCUSSION	14
	I) Sprouting potential study	14
	A) Effect of Length-variation	14
	B) Effect of Girth-size variation	17
	C) Effect of Plant growth regulators (PGR)	17
	D) Effect of keradix treatment	21
	E) Effect of Morphological positions	23
	II) Response of cuttings to fresh water condition	25
	III) Response of seedlings to fresh water condition	29
	A) Survival percentage	31
	B) Growth performance	31
	C) Distribution of organic constituents	35

Chapter	T i t l e	Page
	i) Chlorophylls	35
	ii) Polyphenols	38
	IV) Response of male and female cuttings to fresh water condition	40
	V) Biomass study	46
4	SUMMARY AND CONCLUSIONS	53
5	REFERENCES	64
	STATEMENT - I	78
	STATEMENT - II	79
