

## SPECIES INDEX

|  | <u>Page No.</u> |
|--|-----------------|
| <u>Appendiculella calostroma</u> (Desm.) Hoehnel   | 25              |
| <u>Asteridiella theae</u> sp.nov.  | 28              |
| <u>Asterina camelliae</u> Syd.and Butler   | 66              |
| <u>A.daphniphylli</u> Yamamoto   | 67              |
| <u>Cystotheca indica</u> sp.nov.   | 19              |
| <u>Eudarluca caricis</u> (Fr.) O.Eriksson var. <u>indica</u><br>(Ramkrishnan) O.Eriksson comb.nov. | 69              |
| <u>Eutypa aurindincea</u> Saccardo   | 42              |
| <u>Heleococcum indicum</u> sp.nov.   | 52              |
| <u>Hypnotheca graminis</u> Tommerup  | 61              |
| <u>Hypocrella tubulata</u> Petch   | 59              |
| <u>Hypomyces papulasporae</u> Rogerson and Samuels<br>var. <u>amerinacus</u> Rogerson and Samuels  | 57              |
| <u>Meliola anodendrae</u> Sawada and Yamamoto  | 31              |
| <u>M.stenospora</u> Wint. var. <u>major</u> Hansf.   | 36              |
| <u>M;setariae</u> Hansf. and Deighton var. <u>indica</u> var.nov.                                  | 33              |
| <u>Nitschkia broomeina</u> (Berk.) Nannfeldt   | 40              |
| <u>Ophioirenina theae</u> Sawada and Yamamoto  | 37              |
| <u>Phyllachora arthraxonis</u> P.Hennings  | 44              |
| <u>P.bonariensis</u> Speg.   | 45              |
| <u>P.fallax</u> Saccardo   | 46              |
| <u>P.graminis</u> (Pers. ex Fries) Nke.  | 47              |
| <u>P.ischaemi</u> Sydow, H.and P.  | 48              |
| <u>P.paspalicola</u> P.Hennings  | 49              |

## Species index (Contd...)

|  | <u>Page No.</u> |
|--|-----------------|
| <u>P.sacchari</u> P.Hennings                       | 50              |
| <u>Tubeufia indica</u> sp.nov.                     | 74              |
| <u>Uncinula religiosa</u> Ramkrishnan and Sundaram | 23              |
| <u>wentiomyces javanicus</u> Koorders              | 71              |

## HOST INDEX

|   | <u>Page No.</u> |
|---|-----------------|
| <u>Andropogon assimilis</u> Steud                     | 48              |
| <u>Andropogon triticeus</u> Br.                       | 48              |
| <u>Anodendron offline</u>                             | 32              |
| <u>Anodendron paniculatum</u> DC.                     | 32              |
| <u>Arthraxon hispidis</u> (Thunb.) Makine             | 44              |
| <u>Arthraxon innermis</u> Hook, f.                    | 44              |
| <u>Arthraxon lanceolatus</u> Hochst.                  | 44              |
| <u>Arthraxon meeboldii</u> Stapf                      | 44              |
| <u>Brachiaria reptans</u> (L.) Gerad and C.E.Hubb.    | 45              |
| <u>Calophyllum apetalum</u> Willd.                    | 19, 20, 22, 80  |
| <u>Capillipedium huegelii</u> (Hack.) A. Camus        | 48              |
| <u>Chionachnes koenigii</u> (Spreng.) Thw.            | 46, 47          |
| <u>Chrysopogon fulvus</u> (Spreng.) Chionx            | 46              |
| <u>Chrysopogon gryllus</u> (L.) Trin.                 | 46              |
| <u>Chrysopogon montanus</u> Trin.                     | 46              |
| <u>Coix lacyma-jobi</u> L.                            | 62              |
| <u>Cymbopogon flexosus</u> (Nees) Wats.               | 48, 62          |
| <u>Daphniphyllum macropodium</u> Miq.                 | 67              |
| <u>Daphniphyllum neilgherrense</u> (Wt.) Rosenth.     | 67              |
| <u>Daphniphyllum tejsmanni</u> Zoll                   | 67              |
| <u>Dichanthium annulatum</u> (Forssk.) Stapf          | 48, 49, 69      |
| <u>Dichanthium glabrum</u> (Roxb.) Jain and Desphande | 48              |
| <u>Digitaria longiflora</u> (Retz.) Pers.             | 49, 50          |
| <u>Eragrostiella nardoides</u> (Trin.) Bor            | 47, 48          |

|  | <u>Page No.</u> |
|--|-----------------|
| <u>Eugenia jambalana</u> L.                | 60              |
| <u>Eugenia revoluta</u> Horton             | 60              |
| <u>Ficus religiosa</u> L.                  | 23              |
| <u>Ficus elastica</u> Roxb.                | 71,72           |
| <u>Heteropogon contortus</u> (L.) P.Beauv. | 48,62           |
| <u>Isachne albeus</u> Trin.                | 49              |
| <u>Ischaemum rugosum</u> Salib.            | 48,49           |
| <u>Ischasmum zeylanicolum</u> Bor          | 49              |
| <u>Lasiacis divaricata</u> (L.) Hitch.     | 45              |
| <u>Ophiuros exaltatus</u> O.Kuntze         | 49              |
| <u>Piper nigrum</u> L.                     | 36              |
| <u>Poinciana regia</u> Boer.               | 53,55           |
| <u>Quercus leucotrichophora</u> A.Camus    | 72              |
| <u>Rottboellia exaltata</u> L.             |                 |
| <u>Rubus moluccanus</u> L.                 | 25,26           |
| <u>Sacchrum officianum</u> L.              | 50              |
| <u>Sehima nervosum</u> (Rottl.) Stapf      | 48              |
| <u>Sehima sulcatum</u> (Hack.) A.Camus     | 48,49           |
| <u>Setaria</u> sp.                         | 33,35           |
| <u>Setaria chevalieri</u>                  | 35              |
| <u>Setaria sulcata</u>                     | 35              |
| <u>Thea sinensis</u> L.                    | 28,29,30,38,66  |
| <u>Thelepogon elegans</u> Roth.            | 62              |
| <u>Themeda triandra</u> Forssk.            | 42              |
| <u>Xylia</u> sp.                           | 40              |
