C O N T E N T S

| CHAPTER NO. | PARTICULARS | PAGE NO. |
|----------------|---|-------------|
| | ACKNOWLEDGEMENT | 1 - 2 |
| | ABBREVIATION | 3 - 4 |
| I. | <u>INTRODUCTION AND REVIEW OF LITERATURE</u> | 5 - 23 |
| | A) Taxonomy and Morphology | |
| | B) Rhizome | |
| | C) Important and Improved turmeric Varieties | |
| | D) Climate and Cultivation | |
| | E) Growth | |
| | F) Harvesting | |
| | G) Economic Importance | |
| | H) Major diseases of turmeric | |
| | I) Scope of Present Investigation | |
| II. | <u>MATERIAL AND METHODS</u> | 24 - 38 |
| | 1. Material | |
| | 2. Methods | |
| | A) Physical parameters | |
| | B) Moisture percentage | |
| | C) Relative Water Content (R.W.C.) | |
| | D) Organic constituents : | |
| | (i) Chlorophylls | |
| | (ii) Carotenoids | |
| | (iii) Total polyphenols | |
| | (iv) Titratable acid number (T.A.N.) | |
| | (v) Curcumin content | |
| | (vi) Carbohydrates | |
| | (vii) Protein content | |
| | E) Enzymes : | |
| | (i) Nitrate - Reductase | |
| | (ii) Acid - phosphatase | |
| | (iii) Amylase | |

| CHAPTER NO. | PARTICULARS | PAGE NO. |
|----------------|-------------|-------------|
|----------------|-------------|-------------|

- F) Inorganic constituents :
 - (a) Nitrogen :
 - i) Preparation of acid digest
 - ii) Estimation of nitrogen
 - (b) Minerals :
 - i) Preparation of acid digest
 - ii) Estimation of phosphorus
 - iii) Estimation of Sodium, Potassium, Calcium, Magnesium, Manganese, Iron, Copper, Zinc

III. RESULTS AND DISCUSSIONS

39 - 76

- A) Physical Parameters
- B) Moisture percentage
- C) Relative Water Content (R.W.C.)
- D) Organic Constituents :
 - (a) Chlorophylls
 - (b) Carotenoids
 - (c) Polyphenols
 - (d) Titratable acid number (T.A.N.)
 - (e) Curcumin content
 - (f) Carbohydrates
 - i) Reducing and Non-reducing sugars
 - ii) Total sugars
 - iii) Starch
 - (g) Protein content
- E) Enzymes :
 - i) Nitrate - Reductase
 - ii) Acid - Phosphatase
 - iii) Amylase
- F) Inorganic constituents :
 - i) Sodium
 - ii) Potassium
 - iii) Calcium
 - iv) Magnesium
 - v) Nitrogen
 - vi) Phosphorus
