

List Of Figures

Chapter No.	Fig. No.	Title	Page No.
I	1.	Major Soils of India.	07
	2.	World acid Soils, Areas of predominance are highlighted in dark color.	10
	3.	Strategies of plant adaptation to acid mineral soils.	22
	4.	Model of proposed tolerance of Al tolerance.	27
III	5.	Effect of Al toxicity on Moisture percentage during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	55
	6.	Effect of Al toxicity on Oil content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	59
	7.	Gluconeogenesis in fat storing seedling.	60
	8-13.	Effect of Al-treatment on Carbohydrate Metabolism content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	64-66
	14, 15	Effect of Al toxicity on Lipase enzyme during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	69-70
	16, 17	Effect of Al toxicity on Peroxidase enzyme during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	73-74
	18.	Effect of Al-treatment on Nitrogen content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	77
	19.	Effect of Al-treatment on Phosphorus content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	80
	20.	Effect of Al-treatment on Potassium content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	81
	21.	Effect of Al-treatment on Calcium content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	84
22.	Effect of Al-treatment on Magnesium content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	87	

III	23.	Effect of Al-treatment on Iron content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	90
	24.	Effect of Al-treatment on Manganese content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	93
	25.	Effect of Al-treatment on Zinc content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	94
	26.	Effect of Al-treatment on Molybdenum content during groundnut (<i>Arachis hypogaea</i> L.) seed germination.	97

List Of Photo Plates

Chapter No.	Plate No.	Title	Page No.
II	1.	Seeds of groundnut cultivars W-55 and SB-11	40
III	2.	Germinating seeds of cv. W-55 and SB-11 (after 24 hrs)	51
	3.	Germinating seeds of cv. W-55 and SB-11 (after 120 hrs)	58
	4.	Qualitative determination of Al in groundnut seedlings	63
