CHAPTER	TITLE	Page No.
I.	INTRODUCTION	1 - 7
II.	REVIEW OF LITERATURE	8 - 22
	A. Applications of seaweeds	8
	1. Food	9
	2. Animal feed	11
	3. Medicinal uses	11
	4. Waste water treatment	12
	5. Industrial uses	13
	6. Antibiotic properties	14
	7. Antioxidant properties	15
	8. Biochemical properties	16
	B. Fertilizer applications	16
	1. Germination	17
	2. Crop growth	18
	3. Yield	21
	4. Environmental stress	21
III.	MATERIALS AND METHODS	23 - 45
	A. Study area	23
	B. Material	26
	1. Seaweeds	26
	2. Fenugreek : Agronomical aspects	30

C. Methods	33-44
1. Collection of seaweeds	33
2. Preparation of seaweed liquid fertilizer	33
a) Fresh concentrate	34
b) Boiled concentrate	34
c) Soaked concentrate	34
3. Composition of Hoagland solution	35
4. Procurement of seeds and seed treatment	35
5. Biochemical analysis of fenugreek	36
a) Photosynthetic Pigments	36
i. Chlorophyll	36
ii. Carotenoids	36
b) Organic constituents	37
i. Total carbohydrate	37
ii. Total proteins	38
iii. Total nitrogen	39
iv. Free amino acids	40
v. Total polyphenols	41
vi. Total minerals	42
6. Analysis of Seaweeds	42
a. pH	42
b. Organic constituents	43
i. Total lipid	43
c. Inorganic constituents	43
i. Macro and micronutrients	44
ii. Phosphorus	44

IV.	RESULTS AND DISCUSSION	46-90
	A. Survey of Study area	46
	B. Analysis of Seaweeds	48
	1. Physical parameters	48
	a. Colour	48
	b. pH	48
	2. Organic constituents	50
	a. Total Carbohydrate	50
	b. Total Proteins	51
	c. Total Lipid	53
	3. Inorganic constituents	54
	a. Total Minerals	54
	b. Macro elements	57
	i. Nitrogen	57
	ii. Phosphorus	58
	iii. Potassium	59
	iv. Calcium	60
	v. Magnesium	60
	vi. Iron	60
	vii. Manganese	61
	b. Micro elements	63
	i. Copper	63
	ii. Zinc	63
	iii. Nickel	64
	C. Seaweed Application to <i>Trigonella foenum-graecum</i>	66
	1. Germination	66

2. Growth	72
a) Shoot height	72
b) Fresh weight	77
c) Dry weight	77
d) Moisture percentage	78
3. Biochemical analysis of Fenugreek	80
a) Photosynthetic Pigments	80
b) Organic constituents	83
i. Total carbohydrate	83
ii. Total Proteins	85
iii. Free amino acids	85
iv. Total Polyphenols	87
v. Total Nitrogen	89
c) Total minerals	91
V. SUMMARY AND CONCLUSIONS	92-99
BIBLIOGRAPHY	100
PUBLICATIONS	114
STATEMENT I	115
STATEMENT II	116
