

C O N T E N T S

| | Page No. |
|--------------------------------------|----------|
| CHAPTER I INTRODUCTION | 1 - 8 |
| Prologue | 1 - 2 |
| Area of investigation | 3 |
| Physiography, climate and vegetation | 3 - 4 |
| Previous work | 4 - 7 |
| Purpose of the present study | 7 - 8 |
| CHAPTER II GEOLOGY AND GEOMORPHOLOGY | 9 - 24 |
| Regional geological setting | 9 - 10 |
| Geology of the area | 10 - 11 |
| Geomorphology | 11 - 12 |
| Features due to fluvial erosion | 13 - 15 |
| Features due to fluvial deposition | 15 - 16 |
| Features due to marine erosion | 16 - 19 |
| Features due to marine deposition | 20 - 22 |
| Discussion | 22 - 24 |
| CHAPTER III LINEAMENT ANALYSIS | 25 - 29 |
| Introduction | 25 - 28 |
| Discussion | 28 - 29 |

| | | |
|------------|------------------------------------|---------|
| CHAPTER IV | MORPHOMETRIC ANALYSIS | 30 - 48 |
| | Introduction | 30 |
| | Drainage analysis | 30 - 33 |
| | Bifurcation ratio | 33 - 34 |
| | Stream length | 34 - 35 |
| | Drainage density | 35 - 36 |
| | Constant of channel maintenance | 36 - 37 |
| | Hypsometric analysis | 37 - 39 |
| | Altimetric analysis | 39 - 41 |
| | Slope analysis | 41 - 43 |
| | Stream gradient index | 43 - 46 |
| | Discussion | 46 - 48 |
| CHAPTER V | TERRAIN CHARACTERISTICS | 49 - 57 |
| | Introduction | 49 |
| | Spatial pattern of relative relief | 49 - 51 |
| | Spatial pattern of average slope | 51 - 52 |
| | Topographic profile | 53 - 54 |
| | Analysis of geomorphic variables | 54 - 57 |
| CHAPTER VI | SUMMARY AND CONCLUSIONS | 58 - 61 |
| | REFERENCES | 1 - 9 |
| | APPENDIX | |
| | PLATES | |
