

Following fungi were collected and studied along with the present investigation:

1). *Acaulopage dichotoma* Drechs.

Habitat : On leaf litter

Locality: Pateghar

Date of collection: 19 Aug. 2008.

2). *Brevilegnia subclavata* Couch.

Habitat : On insects (cockroaches)

Locality: Moti talav

Date of collection: 25 Nov. 2007.

3). *Saprolegnia terrestris* sp. nov. Cookson

Habitat : On insects (cockroaches)

Locality: Urmodi river, Pateghar

Date of collection: 19 Aug. 2007.

4). *Pestalotia palmarum* Cook.

Habitat : Foam samples.

Locality: Urmodi river

Date of collection: 19 Aug. 2008.

5). *Memnoniella* sp.

Habitat : On culture medium

Locality: Kas talav

Date of collection: 26 Sep. 2007.

6). *Zygosporium oschoioides* Montagne

Habitat : Leaf litter

Locality: Mangalwar talav

Date of collection: 23 Aug. 2007.

7). *Thraustotheca clavata* Humprey

Habitat : On bean seed

Locality: Kas talav

Date of collection: 11 July. 2008.
