ACKNOWLEDGEMENTS

I express my deep sense of gratitude to Dr. H.V. Kumbhojkar for his valuable guidance and encouragement in preparing this dissertation and for introducing me to the theory of Fuzzy sets and systems.

I am thankful to Dr. L. Radhakrishna, Professor and Head, Department of Mathematics, Shivaji University Kolhapur for providing necessary departmental facilities.

I am grateful to the Principal K.M. Agashe, Willingdon College, Sangli, to Shri. R. V. Gogate, Head, Mathematics Department, Willingdon College, Sangli and to my senior colleagues for their help and constant encouragement throughout the year.

I am also thankful to Shri. A.R.Kulkarni for his prompt and neat typing.

_ M. S. Bapat
