CONTENT

| CHAPTER | TITLE | PAGE | NO. |
|---------|--|------|-----|
| I | BASIC CONCEPTS AND SYSTEM EQUATIONS | | |
| 1. | Dynamical Identities | 1 | |
| 2. | Energy Conditions | 3 | |
| 3. | Geometrical Symmetries | 4 | |
| 4. | Field Equations Of Gravitation | 6 | |
| 5. | Maxwell Equations | 8 | |
| 6. | Differential Identities | 8 | |
| 7. | Homogeneous Magnetic Field | 10 | |
| II | RIM DISTRIBUTION AND A GROUP OF CONFORMAL MOTIONS | | |
| 1. | Properties Of Conformal Motions | 12 | |
| 2. | Conformal Motions And Field Equations For The RIM Distribution | 14 | |
| 3. | Special Conformal Motion And Associated Consequences | 20 | |
| III | CURVATURE INHERITANCE IN RIM DISTRIBUTION | 22 | |
| IV | CONFORMAL MOTIONS AND CURVATURE INHERITANCE (JOINT EFFECT) | | |
| 1. | Interplay Between CKV And CI | 37 | |
| 2. | The Special Conformal Motions | 39 | |
| 3. | Explicit Relation Between α And ψ (A Case Study) | 40 | |
| 4. | Space-time Model Admitting Conformal Motions | 41. | |
