

ACKNOWLEDGEMENT

It is great pleasure to express my deep sense of gratitude to Dr. L. N. Katkar for his inspiring guidance in the preparation of M. Phil dissertation entitled "Differential forms in Einstein- Cartan Theory of Gravitation", without which it was impossible for me to complete the same in time to the satisfaction. The formal acknowledgement is an inadequate expression of my gratitude to him.

For departmental facilities I express my sincere thanks to Prof. Mrs. Y. S. Pawar, Head of Mathematics Department, Prof. M. S. Chaudhary, former Head of the Department of Mathematics and Dr. C. S. Manjarekar, Shivaji University, Kolhapur.

My special thanks are due to Prof. D. S. Khairmode, Willingdon College, Sangli, for his valuable assistance in the preparation of the dissertation.

Warm regards of the author are due

to Mr. Arvind and Mrs. Suman Salunkhe (author's parents) for their exquisite encouragement and blessing thought out my educational career,

to Mr. Mahadev Pawale and Mrs. Sushila Pawale
(author's father in law and mother in law) for their filial
advice,

to Prof. Hanmant Pawale

M. Sc. Bio-Technology (I.I.T. Pawai),
Indian Central School Kuwait, (author's husband) for his
motivation and affectionate advise to undertake and
complete the research work,

to Prof. Shivajirao and Mrs. Sunanda Salunkhe
(author's uncle and anti) for their keen interest in
completion of my M. Phil.

(Miss. Nayana Salunkhe)
