

ACKNOWLEDGEMENT

This dissertation has been prepared under the supervision and guidance of Dr. Mrs. Y. S. Pawar, Professor & Head, Department of Mathematics, Shivaji University, Kolhapur. Her profound interest in mathematical research and constant encouragement during this period helped me to trudge the scientific path. She introduced me the theory of fuzzy sets & system.

I am thankful to Prof. Dr. Mrs. Y. S. Pawar, Professor and Head, Department of mathematics for availing all sources of departmental facilities during the period of my research work. My thanks go to other staff members of the Department of Mathematics, Shivaji University, Kolhapur, for their constant encouragement.

I should especially mention over here the name of my best teacher Dr. M. S. Bapat, Department of Mathematics, Willingdon College, Sangli for his ready support during my research work and for showing the way through the misty clouds of fuzzy sets and systems.

I am very much thankful to Dr. B. P. Nikam, Head, Department of General Engineering, R.I. T., Sakharale for motivating and encouraging me with his invaluable inputs during my research work. I should express few words of gratitude to the Principal, Rajarambapu Institute of Technology, Rajaramnagar (Sakhrale). At the same time I am thankful to my colleagues for their assistance in preparing of this work.

I must express my gratitude to my family members not only for their assistance and frequent encouragement in this research but also patience and understanding. It is my obligation and not mere a formality to pen a word of honor to my parents. I should not forget Mrs. Rajashri and Snehanak who extended a hand of kind help during the preparation of this dissertation.

I take the opportunity to express my sincere thanks to Shri. Jayavant T. Bhosale for neat and elegant bound of this dissertation.

S. N. Yadav
