

C O N T E N T S

	Page No.
 <u>CHAPTER-I : NOTIONS AND CONCEPTS</u>	
(1) Introduction	1 - 2
(2) Stress-energy tensor for F-Magnetofluid	2 - 5
(3) Contractions of stress-energy tensor T^{ab}	5 - 6
(4) Energy Conditions	6 - 7
(5) Kinematics of fluid flow.	8 - 9
(6) Field equations for F-magnetofluid	10 - 12
 <u>CHAPTER-II : CONSERVATION LAWS AND ISOMETRIS</u>	
(1) Equation of continuity for F-Magnetofluid	13 - 14
(2) Equations of stream lines for F-magnetofluid	14 - 16
(3) Equation of heat transfer for F-magnetofluid	16-19
(4) Raychaudhari's equation for F-magnetofluid.	19 - 20
(5) Isometry with respect to the flow vector U.	20 - 24
(6) Isometry with respect to the magnetic field vector H.	24 - 27
 <u>CHAPTER-III : FERRARO'S LAW OF ISOROTATION.</u>	
	28 - 39
 <u>R E F E R E N C E S</u>	
	40 - 42
