

# I N D E X

| CHAPTER | TITLE  | PAGE NO. |
|---------|--|----------|
| I       | <b>THIN FILM : INTRODUCTION</b>  |          |
| 1.1     | General Introduction   | 1        |
| 1.2     | PVD Technique and Mechanism  | 3        |
| 1.3     | Electron Transport Properties  | 8        |
| 1.4     | Review of Literature on Silver,<br>Silver selenide, Copper selenide,<br>Copper telluride films   | 14       |
| 1.5     | Techniques for Measuring<br>Electrical Constants   | 17       |
| 1.6     | Aim of This Work   | 22       |
| 1.7     | Applications   | 22       |
| II      | <b>DEPOSITION OF SILVER, SILVER SELENIDE,<br/>COPPER SELENIDE AND COPPER TELLURIDE<br/>FILMS AND <i>STUDY OF THEIR ELECTRICAL PROPERTIES</i></b> |          |
| 2.1     | Experimental Method  | 26       |
| 2.2     | Vacuum System Used for Deposition  | 27       |
| 2.3     | Substrate Used and Its Cleaning  | 27       |
| 2.4     | Method of Film Preparation (Deposition)<br>on annealed copper substrate  | 38       |
| 2.5     | Thickness Measurement  | 43       |

| CHAPTER | TITLE  | PAGE NO. |
|---------|--|----------|
| 2.6     | System for Hall Effect and Hall Effect Measurement                               | 43       |
| 2.7     | System for Resistivity and Resistivity Measurement                               | 48       |
| 2.8     | System for TEP and TEP Measurement   | 49       |
| III     | RESULTS AND DISCUSSION ON PRESENT WORK   |          |
| 3.1     | Introduction   | 50       |
| 3.2     | Results and Discussion on XRD, Photo-micrography and electrical characterization | 50       |
| 3.2a    | Silver films by vacuum deposition  | 53       |
| 3.2b    | Copper selenide by thermal evaporation   | 64       |
| 3.2c    | Copper telluride by thermal evaporation  | 70       |
| 3.2d    | Silver selenide by thermal evaporation   | 77       |
| 3.3     | Conclusions  | 87       |
|         | References   | 90       |
