

CONTENTS

Chapter	Title	Page
I.	<u>Introduction</u>	
1.1	General ...	2
1.2	Solar cells and Solar Energy Materials...	3
1.3	Oxide Semiconductors ...	9
1.4	Statement of the Problem ...	10
	References ...	13
II.	<u>Theoretical Background</u>	16
2.1	Introduction ...	17
2.2	Interface ...	17
2.3	Types of Interfaces ...	18
2.3.1	Solid-Gas Interface ...	19
2.3.2	Solid-Solution Interface ...	21
2.3.3	Solution-Gas Interface ...	23
	References ...	30
III.	<u>Deposition of Fe₂O₃ by Solution-Gas Interface Technique</u> ...	33
3.1	Introduction ...	33
3.2	Experimental Set-up for Solution-Gas Interface Technique ...	34
3.3	Other Experimental Details ...	41
3.4	Growth of Films ...	43
3.5	Parameters in Growth Process ...	44
	References ...	47

...

Chapter	Title		Page
IV.	<u>Studies on Fe₂O₃ films</u>		
4.1	Introduction	...	50
4.2	Experimental	...	50
4.2.1	Film Thickness Measurement	...	50
4.2.2	Microstructure	...	50
4.2.3	Experimental Set-up for Electrical Characterization	...	51
4.2.4	Optical Characterization	...	53
4.3	Results and Discussion	...	56
	References	...	75
V.	<u>Summary and Conclusions</u>	...	76
	BIODATA	...	81
