

C O N T E N T S

CHAPTER	TITLE	PAGE
I.	INTRODUCTION.	
1.1	Solid State Luminescence. ...	01
1.1.1	Historical. ...	01
1.1.2	General. ...	02
1.1.2	Present Status - Survey of Literature. ...	03
1.2	Concentration Quenching of Luminescence. ...	11
1.3	Scope of Present Work	12
	Figures. ...	15
	References. ...	17
II.	SYNTHESIS OF SrSO ₄ PHOSPHORS.	
2.1	Phosphors. ...	23
2.2	General Considerations of Phosphor Synthesis. ...	24
2.3	Preparative Parameters of Phosphors. ...	28
2.4	Preparation of SrSO ₄ Phosphors. ...	31
	Table. ...	34
	Figure. ...	35
	References. ...	36
III.	CHARACTERISATION OF PHOSPHORS.	
3.1	Introduction. ...	38
3.2	Structural Characterisation. ...	38
3.3	Electrical Characterisation. ...	42
3.3.1	A.C. Conductivity. ...	42
3.3.2	D.C. Resistivity. ...	45
3.3.3	Thermoelectric Powers. ...	47
3.4	Magnetic Characterisation. ...	49
3.5	Optical Characterisation. ...	55

CHAPTER	TITLE	PAGE
	Tables.	56
	Figure Captions.	61
	References.	72
IV.	ELECTROLUMINESCENCE.	
4.1	Introduction.	74
4.2	Theoretical Background.	76
4.3	Experimental Set-up for Electroluminescence.	79
4.4	Results and Discussion.	84
4.4.1	Voltage Dependence of Brightness.	84
4.4.2	Frequency Dependence of Brightness.	88
4.4.3	Role of Activators and Concentration Quenching in Electroluminescence.	90
4.4.4	Role of Na ₂ SO ₄ in Electroluminescence.	91
4.4.5	Possible Mechanism of Electroluminescence in SrSO ₄ phosphors activated with Dy or ⁴ Tb.	93
	Tables.	96
	Figures Captions.	98
	References.	114
V.	SUMMARY.	118
