

C O N T E N T

CHAPTER	TITLE	PAGE
I	INTRODUCTION	
	1.1 History of Luminescence	... 1
	1.2 Imperfections in Solids	... 4
	1.3 General Mechanism of Luminescence	... 5
	1.4 Non-radiative Transitions	... 8
	1.5 Types of Luminescence	... 9
	1.6 Process of Energy Transfer	... 10
	1.7 Alkaline Earth Sulphate Phosphors	... 10
	1.8 Scope of the Present Work	... 12
	Figure Captions	... 14
	References	... 19
II	PREPARATION OF PHOSPHORS	
	2.1 General Aspects of Synthesis of Phosphors	... 21
	2.2 Preparation of BaSO <sub>4</sub> Phosphors	... 26
	References	... 30
III	I-V AND XRD STUDIES	
	3.1 Introduction	... 31
	3.2 XRD Studies	... 31
	3.3 I-V Studies	... 33
	Figure Captions	... 35
	References	... 49
IV	ELECTROLUMINESCENCE	
	4.1 Introduction and Theoretical Background	... 50
	4.2 Experimental	... 62
	4.3 Results	... 63
	4.4 Discussion	... 67
	Figure Captions	... 76
	References	... 103

## Content (contd.)

CHAPTER	TITLE	PAGE
V	SUMMARY AND CONCLUSIONS	
	5.1 Crystallographic Structure and Nature of Defects	... 106
	5.2 Effect of Activator and Their Concentration	... 107
	5.3 Enhancement Effect due to Co-activator	... 107
	5.4 Enhancement Effect due to Charge Compensator	... 109
	5.5 Combined Effect of Co-activator and Charge Compensator	... 109
	Figure Captions	... 113
	References	... 116
