

CONTENTS

CHAPTER NO.	TITLE	PAGE NO.
I	INTRIDUCTION	1
1.1	General	2
1.2	Survey of Literature on Molybdenum Oxide	4
1.3	Purpose of Dissertation	11
	REFERENCES	14
II	THEORETICAL BACKGROUND	16
2.1	The basis of Electrochromism	17
2.2	Definition of Electrochromism	19
2.3	Microstructural Aspects	20
2.4	Survey of colouration Methods	30
2.5	Classes of Electrochromic Materials	34
2.6	Configuration of Electrochromic Cell	36
	2.6.1 Electrolytes	38
	2.6.2 Counter Electrode	42
	REFERENCES	45
III	DEPOSITION OF MOLYBDENUM OXIDE THIN FILMS	49
3.1	Introduction	50
3.2	Experimental	52
	3.2.1 Spray Pyrolysis Technique	52
	3.2.2 Substrate Cleaning	55

CHAPTER NO.	TITLE	PAGE NO.
	3.2.3 Preparation of F.T.O. Coated Glass Substrate	56
	3.2.4 Preparation of Ammonium Molybdate Solution	57
3.3	Results and Discussion	57
	3.3.1 Optimization of Preparative Parameters for MoO ₃ Thin Films	57
	3.3.2 Preparation of MoO ₃ films by Thermal Decomposition of Ammonium Molybdate Solution	59
	REFERENCES	60
IV	STRUCTURAL, OPTICAL AND ELECTRICAL PROPERTIES OF SPRAYED MOLYBDENUM OXIDE THIN FILMS	62
	4.1 Introduction	63
	4.2 Experimental	64
	4.2.1 Thickness Measurement	64
	4.2.2 X-Ray Diffraction	64
	4.2.3 Surface Morphology	65
	4.2.4 Optical Absorption Spectroscopy	65
	4.2.5 Electrical Resistivity	65
	4.3 Results and Discussion	66
	4.3.1 Thickness Measurement	66
	4.3.2 X-Ray Diffraction	68

CHAPTER NO.	TITLE	PAGE NO.
	4.3.3 Surface Morphology	72
	4.3.4 Optical Absorption Measurement	72
	4.3.5 Electrical Resistivity	79
	REFERENCES	85
V	ELECTROCHROMIC PROPERTIES OF SPRAYED MOLYBDENUM OXIDE THIN FILMS	87
	5.1 Introduction	88
	5.2 Experimental	88
	5.2.1 Cyclic Voltammetry and Chronoamperometry	88
	5.2.2 X-Ray Analysis	89
	5.2.3 Optical Absorption Spectroscopy	89
	5.2.4 Spectral Transmittance	89
	5.3 Results and Discussion	92
	5.3.1 Cyclic Voltammetry	92
	5.3.2 Chronoamperometry	98
	5.3.3 X-Ray Analysis	101
	5.3.4 Optical Absorption	104
	5.3.5 Spectral Transmittance	104
	REFERENCES	108
VI	SUMMARY AND CONCLUSION	109
