CHAPTER	TITLE	PAGE.
I	INTRODUCTION	
	1.1 Historical Development and General Concept of Luminescence	1
	1.2 Review of Present Trends in Luminescence	4
	1.3 General Mechanism of Luminescence.	7
	1.4 Types of Luminescence.	12
	1.5 Sensitised Luminescence and Energy Transfer	14
	1.6 Survey of Luminescence Material and Review of Studies of Alkaline Earth Sulphate Phosphors.	15
	1.7 Scope of the Present Work.	20
	Figure Captions	22
	References	27
II	PREPARATION OF PHOSPHORS	
	2.1 Synthesis of Phosphors.	30
	2.2 Preparation of BaSO <sub>4</sub> Phosphors	36
	4 Tables	41
	Figure Captions	43
	References.	45

CHAPTER	TITLE	PAGE.
III	ELECTRICAL AND STRUCTURAL CHARACTERISATION.	
	3.1 Introduction	47
	3.2 Electrical Characterisation	47
	3.3 Result and Discussion	48
	3.4 Structural Characterisation.	50
	3.5 Result and Discussion.	52
	Figure Captions.	55
	References.	74
IV	ELECTROLUMINESCENCE.	
	4.1 Introduction.	75
	4.2 Experimental.	84
	4.3 Results and discussions.	86
	Tables.	99
	Figure Captions.	101
	References.	136
V	SUMMARY AND CONCLUSIONS	
	5.1 Preparation of Phosphors and Structural Studies.	139
	5.2 Electrical Characterisation	140
	5.3 EL studies of BaSO <sub>4</sub> : Dy: Tb, Yb, Pr, Mn, Cu, phosphors and Their Voltage and frequency Dependence.	141
	5.4 Enhancement Effect due to Co-activator.	143

CHAPTER	TITLE	PAGE.
5.5	Enhancement Effect due to Concentration Optimisation of Activator and Co - activator.	146
5.6	Enhancement Effect due to Charge Compensator	147
	Figure Captions.	149
	References.	152
