

CONTENT

CHAPTER	TITLE	Page No.
1	INTRODUCTION	1
1.1	Microstrip Antenna	2
1.2	Microstrip Patch Antenna (MPA)	3
1.3	Radiation mechanism of MPA	3
1.4	Feeding Techniques	6
1.5	Review of Methods of improvement of the properties of MPA	11
1.6	Fabrication of Microstrip Patch Antenna	16
1.7	Ferrite	18
1.8	Preparation techniques of ferrites	20
1.9	Aim of the work	22
2	EXPERIMENTAL WORK	23
2.1	Introduction	23
2.2	Designing of Electromagnetically Coupled Microstrip Patch Antenna (EMCPA)	23
2.3	Fabrication of EMCPA	29
2.4	Synthesis of ferrite	33
2.5	Microwave system for antenna characterisation	34
2.6	Characterisation of EMCPA using X-Band Microwave bench	36
3	RESULTS OF THE EXPERIMENTATION	43
3.1	Introduction	43
3.2	Properties of synthesized ferrite	43
3.3	Studies on EMCPA	59

CHAPTER	TITLE	Page No.
4	DISCUSSION	91
4.1	Introduction	91
4.2	Antenna without overlay	92
4.3	EMCPA with ferrite pellet loading	95
4.4	Conclusion	100
	REFERENCES	102
	LIST OF PAPERS PUBLISHED / PRESENTED IN VARIOUS CONFERENCES	108
