| CHAPTER- I NANOCRYSTALLINE FERRITES | | |
| 1.1 | Introduction | 1 |
| 1.2 | Structure of ferrite | 2 |
| 1.3 | Classification of nanocrystalline materials | 4 |
| 1.4 | Properties of substituted Li- ferrites | 6 |
| 1.5 | Properties of nanocrystalline ferrites | 7 |
| 1.6 | Literature survey of nanocrystalline ferrites. | 11 |
| 1.7 | Application of nanocrystalline materials | 14 |
| 1.8 | Orientation of the problem | 17 |
| | References | 19 |
| CHAPTER- II SYNTHESIS AND CHACTERIZATION | | |
| PART – A Synthesis of ferrites | | |
| 2.A.1 | Introduction | 24 |
| 2.A.2 | Physical methods | 25 |
| 2.A.3 | Chemical methods | 26 |
| 2.A.4 | Biological method | 27 |
| 2.A.5 | Fast Firing method | 28 |
| 2.A.6 | Role of Sucrose | 28 |
| 2.A.7 | Actual method of ferrite samples | 29 |
| PART – B STRUCTURAL CHARACTERIZATION | | |
| 2.B.1 | Introduction | 31 |
| 2.B.2 | X-ray diffraction technique | 31 |
| 2.B.3 | Experimental techniques | 33 |
| 2.B.4 | Results and discussion | 35 |

| | | |
|--|-------------------------------------|----|
| PART - C | SCANNING ELECTRON MICROSCOPY | |
| 2.C.1 | Introduction | 45 |
| 2.C.2 | Microstructure | 45 |
| 2.C.3 | Sintering | 46 |
| 2.C.4 | Porosity and grain growth | 46 |
| 2.C.5 | Literature survey | 48 |
| 2.C.6 | Experimental techniques | 49 |
| 2.C.7 | Results and discussion | 49 |
| | | |
| PART -D | INFRARED ABSORPTION | |
| 2.D.1 | Introduction | 54 |
| 2.D.2 | Experimental techniques | 55 |
| 2.D.3 | Results and discussion | 55 |
| | References | 60 |
| | | |
| CHAPTER III ELECTRICAL PROPERTIES | | |
| PART A | D.C. CONDUCTIVITY | |
| 3.A.1 | Introduction: | 64 |
| 3.A.2 | Conduction in ferrites | 67 |
| 3.A.3 | Experimental techniques | 70 |
| 3.A.4 | Results and discussion | 71 |
| | | |
| PART B | DIELECTRIC PROPERTIES | |
| 3.B.1 | Introduction | 77 |
| 3.B.2 | Polarization in dielectrics | 78 |
| 3.B.3 | Experimental techniques | 80 |
| 3.B.4 | Results and discussion | 81 |
| | References | 87 |

CHAPTER - IV MAGNETIC PROPERTIES

PART A MAGNETIC HYSTERESIS

| | | |
|-------|------------------------|----|
| 4.A.1 | Introduction | 91 |
| 4.A.2 | Magnetization | 92 |
| 4.A.3 | Magnetic hysteresis | 95 |
| 4.A.4 | Experimental technique | 98 |
| 4.A.5 | Results and discussion | 98 |

PART - B A.C. SUSCEPTIBILITY

| | | |
|-------|------------------------|------------|
| 4.B.1 | Introduction | 108 |
| 4.B.2 | Experimental | 109 |
| 4.B.3 | Results and discussion | 109 |
| | References | 112 |

CHAPTER V SUMMARY AND CONCLUSION 114
