

ACKNOWLEDGEMENT

I express my deep sense of gratitude to Dr. B. M. SAWANT, Reader in Chemistry, Shivaji University Kolhapur, for guiding and successful completion of this research work and encouragement throughout this work.

I owe my gratefulness to late Dr. M. H. Jagdale, Professor and Head of the Chemistry Department, Shivaji University, Kolhapur for providing me all sorts of necessary facilities for completion of this work.

I am thankful to all the members of teaching and non-teaching staff of this department for their valuable co-operation from time to time.

I also thank teacher fellows Shri Mansing Jagtap, A. R. Patil, S. S. Dange and R. R. Chowdhuri for their co-operation.

I thank Principal S. K. Patil, D. P. Bhosale College, Koregaon (Satara) and Secretary, Rayat Shikshan Sanstha, Satara for deputing me for M. Phil. Course and granting me study leave.

I thank Shri S. N. Kanitkar, Head of Microbiology Department and Shri Y. B. Mangalware, Zoology Department, Willingdon College, Sangli, for their valuable help in completing Microbiological tests and Photographic work.

I thank my wife Sou. Shokha Ghorpade and my friend Shri Anand Jadhav for their help and encouragement.

Last but not least, I thank authorities of University Grants Commission, New Delhi, for sanctioning me teacher fellowship.

Department of Chemistry,
Shivaji University,
Kolhapur 416 004

Date: 24/9/87

Work to be Presented / Published

On this work following papers are accepted for presentation and publication :

- 1) Synthesis of N-[4-phenyl-2-quinolyl]-sulfonamides.

Accepted for presentation at the 24th Annual Convention of Chemists to be held at Shivaji University, Kolhapur 416004
Nov. 22-26, 1987 Abst. ORG (H) - 35.

- 2) Synthesis of Heterocyclic sulfonamides Part II :

N-[4-phenyl-2-quinolyl]-sulfonamides, synthesis and microbial activity.

J. Ind. Chem. Soc. (communicated).
