

CONTENTS

CHAPTER	TITLE	PAGE
	Certificate of Guide	1
	Acknowledgement	2
	Synopsis	4
I	INTRODUCTION	
	1. A brief introduction of polycyano compounds	7
	2. Literature survey	14
	3. Scope of the present work	28
	4. References	29
II	EXPERIMENTAL	
Part I	Synthesis, Physical and analytical data	
A]	i] Synthesis of α -methyl benzylidene malononitrile (IIa)	37
	ii] Synthesis of new derivatives of 1,1-Dicyano -2-phenyl -4-Substituted -1,3-butadiene(III a)	40

	B]	Physical and analytical data of the newly synthesised compounds	41
		Physical and analytical data of some other compounds	46
	Part II	Spectral analysis	
		¹ HNMR, IR, UV spectra of newly synthesised compounds.	47
	Part III	Mechanism	64
		Proposed mechanism for the condensation reaction and discussions.	
III		SCREENING OF ANTIMICROBIAL ACTIVITY	
	1.	Introduction	72
	2.	Experimental procedure	74
	3.	Results	76
	4.	Screening of antifungal activity	79
	5.	Discussions	80
	6.	References	86
	7.	Publication	87
