

C O N T E N T S

CHAPTER	TITLE	PAGE
II.	<u>INTRODUCTION</u>	1
	1.1 Introduction	1
	1.2 Motivation for the study of extreme value distributions	9
	1.3 History of extreme value distributions	12
	1.4 Chapterwise Summary	14
III.	<u>DISTRIBUTIONAL PROPERTIES OF ASYMPTOTIC DISTRIBUTIONS</u>	17
	2.1 Introduction	17
	2.2 Relationship of various extreme value distributions	18
	2.3 Distributional properties	26
	2.4 Asymptotic distributions of extremes	39
	2.5 Model sampling from extreme value distributions	66
III.	<u>ESTIMATION OF THE PARAMETERS OF CERTAIN EXTREME VALUE DISTRIBUTIONS</u>	87
	3.1 Introduction	87
	3.2 Preliminary results	87
	3.3 Maximum Likelihood Estimation (M.L.E.) of the parameters of certain extreme value distributions	95
	3.4 Approximate Method of Solving the Likelihood Equation	99
	3.5 Newton-Raphson Iterative Method	105
	<u>REFERENCES</u>	114
