

ACKNOWLEDGEMENT

The work reported in this dissertation represents a part of an extensive work on arthropod hemocytes undertaken by the Entomology Section of the Department of Zoology, Shivaji University, Kolhapur. I was Introduced to the world of arthropod hemocytes by my revered teacher Dr.N.K.More. He suggested this problem and gave me guidance and constant encouragement during the course of this work. I am grateful to him for his personal interest in my work.

I am grateful to Dr. A.T.Varute, Professor and Head, Department of Zoology, Shivaji University, Kolhapur for permitting me to use the laboratory facilities and giving me encouragement during my tenure as a teacher fellow.

The work was largely made possible by the award of a short term teacher fellowship by the University Grants Commission, New Delhi under its Faculty Improvement Programme. I thank the UGC authorities for the same.

I also thank the University Authorities for extending the various facilities. The management of the Rayat Shikshan Sanstha, Satara and the Principal, Shri V.S.Rokade of Annasaheb Awate College, Manchar, where I am employed presently, have always taken a keen interest in the academic pursuits of their teachers. I am thankful to them for granting me one year's study leave and giving me help whenever I needed it.

My teachers, Dr.V.A.Sawant, Dr.B.K.Pawar, Dr.Jay Samant, Dr.Mrs. Aruna Kanase and Dr.G.P.Bhawane have helped me in various ways. I sincerely thank them for their kind help. My colleagues Mr. Gonjari, Mr. B.D. Mohite and Mr. Khatavkar were always willing to help me. Mr. R.S.Khatavkar was particularly very helpful and my only regrets are that I cannot adequately thank him.

The ultrastructural work incorporated in this dissertation was carried out at the Jaslok Hospital, Bombay and I am thankful to Dr. A.R.Chitale, Head, Histopathology Dept., Jaslok Hospital and his brother Dr. V.R.Chitale, an Eminent Surgeon from Solapur for introducing me to this technique and to the technicians from the Jaslok Hospital for their technical assistance.

Dr. D.B.Bastawade, Scientific Officer, Zoological Survey of India and himself, an authority on Indian Scorpions gave me very valuable information on the various species selected for this study. I am very much thankful to him for his valuable advice and useful suggestions.

Finally, I thank, Mr. S.K.Sutar for his assistance in Photography, Mr.Ghatage for his superior typing work and all the non-teaching members of staff of the department of Zoology for their help in various ways.
