

List of Figures

- Fig. 1 : Map of Kolhapur city giving the major physical features.
- Fig. 2 : Locations of the Pariah kite roosts, Whitebacked Vultures roost and feeding sites of scavenger birds.
- Fig. 3 : Locations of the nesting sites of Pariah kite in the city area.
- Fig. 4 : Monthly average Rainfall in mm and number of Rainy Days during November 1986 to March 1988.
- Fig. 5 : Monthly average values of Maximum, Minimum and Average values of (Air) Temperature during November 1986 to March 1988.
- Fig. 6 : Monthly average values of percentage of Relative Humidity and Wind Speed during November 1986 to March 1988.
- Fig. 7 : Monthly average values of Hours of Sunshine and Radiation (November 1986 to March 1988).
- Fig. 8 : Monthly average number of Pariah kite Milvus migrans recorded at nine different roosts in Kolhapur city.
- Fig. 9 : Period of occupation of permanent and temporary roosts of Pariah kite during the study period.
- Fig. 10 : Monthly fluctuations in the total number of Pariah kite and monthly average values of rainfall in Kolhapur city.
- Fig. 11 : Scatterplot showing correlation between the monthly average number of kites and maximum temperature.
- Fig. 12 : Scatterplot showing correlation between the monthly average number of kites and minimum temperature.
- Fig. 13 : Scatterplot showing correlation between the monthly average number of kites and average temperature.
- Fig. 14 : Scatterplot showing correlation between the monthly average number of kites and Relative Humidity.

List of Figures (Contd..)

- Fig.15 : Scatterplot showing correlation between the monthly average number of kites and Hours of Sunshine.
- Fig.16 : Scatterplot showing correlation between the monthly average number of kites and wind speed.
- Fig.17 : Scatterplot showing correlation between the monthly average number of kites and Radiation.
- Fig.18 : Scatterplot showing correlation between the monthly average number of kites and Rainfall.
- Fig.19 : Time of Sunset, Day length and period of assembly at Pariah kite roost R-I.
- Fig.20 : Time of Sunset, Day length and period of assembly at P.kite roost R-II.
- Fig.21 : Time of Sunset, Day-length and period of assembly at Pariah kite roost R-III.
- Fig.22 : Variations in the time of arrival, at 5 minutes interval, at roost R-III in relation to the time of Sunset during November 1986 - March 1988.
- Fig.23 : Time of Sunset, Day-length and Period of Assembly at roost R-IV.
- Fig.24 : Time of Sunset, Day-length and period of Assembly at roost R-V.
- Fig.25 : Time of Sunset, Day-length and Period of Assembly at roost R-VII.
- Fig.26 : Monthly fluctuations in the average values of Whitebacked Vulture at Ramanandnagar in Kolhapur (1987-1988).
- Fig.27 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and minimum temperature.

List of Figures (Contd..)

- Fig.28 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and average temperature.
- Fig.29 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and Relative Humidity.
- Fig.30 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and Wind Speed.
- Fig.31 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and maximum temperature.
- Fig.32 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and Radiation.
- Fig.33 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and Hours of Sunshine.
- Fig.34 : Scatterplot showing correlation between monthly average number of Whitebacked Vulture and Rainfall.
- Fig.35 : Scatterplot showing correlation between monthly average number of Pariah kite and monthly average number of Whitebacked Vulture.
