

A C K N O W L E D G E M E N T S

It gives me a great pleasure to express my sincere and heartfelt gratitude towards my guide Dr.M.C.Joshi,Reader in Department of Zoology. His able guidance and scholarly criticism of the work and many inspiring suggestions are noteworthy. I owe to him so much that I would like to remain indebted to him throughout my life.

It is my prime concern to express my sense of gratitude towards Dr.A.T.Varute, Professor and head of the Department of Zoology. His potential and dynamic inspiration were very much valuable for me in completing the work.

My grateful thanks also go to the teaching and non-teaching staff of this Department and my friends for helping me in one way or the other during the course of research.

I shall be failing in my duty if I do not express my thanks to Shri V.R.Bhange from Degloor, and Shri U.K. Baraskar attached to Chemistry Department for skillful assistance in drawing and sketching. Thanks are also due to my friend Shri Kumbhar for his skillful and strenuous typing of my dissertation.

I must thank the management of A.V.Education

Society, Degloor and Principal, Raghukrishna Shetye for their kind permission to allow me to undertake and complete my work. I must mention my sincere thanks to the authorities of the Shivaji University. Thanks are also due to U.G.C. authorities for the sanction of the financial assistance to me under the faculty improvement programme.

Lastly I wish to record my sense of gratitude towards my mother and wife who handled the home front effectively in my absence at Degloor.

Kolhapur

V.G.Joshi.
