

A C K N O W L E D G E M E N T S

First and foremost, I must acknowledge Dr.M.N.Nalavade, Reader in Zoology, Shivaji University, Kolhapur for suggesting this problem, for guiding the work and for successful completion of this thesis. He has been a constant source of inspiration and he is instrumental in training me as a research worker in Zoology. But for his able guidance, encouragement, interesting criticism of the results and many intelligent and inspiring discussions, the present work would not have been completed as successfully as it has now been done. I also thank him for his help in photomicrographic work. I entirely owe my success to him.

Dr.A.T.Varute, Professor and Head of the Zoology Department, Shivaji University, Kolhapur is another source of inspiration to me. He has always taken a keen interest in my work. I had an opportunity of being his student during post graduate studies and I owe my entire knowledge in Zoology to him. Words are really inadequate to express my gratitude towards him.

I am grateful to all the members of teaching and non-teaching staff of this Department for their kind help whenever I requested for.

I also thank the research scholars and teacher fellows Dr.L.T.Mote and Dr. H.G.Vibhute and Messrs J.N.Gaikwad, M.M.Fartade, R.M.Chandak, B.G.Deshmukh, Y.B.Mitkekar and R.B.Mangalware who have assisted me in reading the proof of the typescript of the thesis and preparation of the bibliography.

I thank Mr. H. R. Deshmukh, Teacher Fellow for his help in photomicrographic preparations. All the artistic beauty of the present treatise is due to him. The excellent type-script of the present thesis is prepared by Mr. V. M. Kumbhar, who is very industrious and helpful friend of mine. He has spared no pains in completing the type-script of the thesis. I express my deep sense of gratitude towards him.

I thank Principal K. M. Agashe, Willingdon College, Sangli, for taking keen interest in my research work and granting study leave during vacations whenever I requested for. I am grateful to Vice-Principals Dr. B. A. Patil, Dr. K. V. Apte and S. S. Bodas for their help and encouragement to complete present thesis. I also thank the Heads of the Zoology Department S. B. Devadhar and V. G. Kshirsagar for their keen interest in my work. I am also grateful to all the members of teaching and non-teaching staff of Biology Department of Willingdon College, Sangli for their kind help whenever I requested for.

Last but not the least, I thank the University authorities, Prin. R. K. Kanbarkar, the Vice-Chancellor and Dr. (Smt.) Usha Ithape, the Registrar of this University for their constant inspiration, encouragement and for allowing me to carry out the work in the Zoology Department and also for providing all the facilities during the course of the present investigation.

Department of Zoology,
Cell Biology Section,
Shivaji University,
Kolhapur-416 004,
Maharashtra, INDIA.

Date : 17th Nov, 1981
