<u>CHAPTER.</u>	<u>TITLE.</u>	<u>PAGES.</u>
I.	INTRODUCTION.	
	1. Metamorphosis: A problem in Developmental biology.	1
	2. Changes in the chemical constituents in insects during embryogenesis, larval growth and metamorphosis.	3
	3. Free Amino Acids in insects.	27
	4. Reasons that lead to present investigation.	32
	5. Plan of proposed work.	34
II.	MATERIAL AND METHODS.	36
III.	CHANGES IN FREE AMINO ACIDS DURING EMBRYOGENESIS.	42
IV.	CHANGES IN FREE AMINO ACIDS DURING LARVAL GROWTH.	51.
V.	CHANGES IN FREE AMINO ACIDS DURING METAMORPHOSIS.	57
VI.	CHANGES IN FREE AMINO ACIDS IN FAT BODY AND HAEMOLYMPH DURING LARVAL GROWTH AND METAMORPHOSIS.	66
VII.	GENERAL DISCUSSION AND CONCLUDING REMARKS.	76
	BIBLIOGRAPHY.	87

From the investigations included in this thesis the following papers were presented at different All India Science Conferences:

1. Free amino acids in insect development growth and metamorphosis: Presented at Symposium On Developmental Biology Department of Zoology, University of Delhi 1980.
2. Free amino acids in haemolymph and fat body of Blowfly during larval growth and metamorphosis: Accepted for presentation at All India Science Congress Mysore, 1982.
