

## LIST OF SCHEMES, TABLES AND FIGURES

- Scheme 1      Synthesis of polyimide  
2              Synthesis of polyester  
3              Preparation of 4-amino-3-pentadecylphenol  
4              Synthesis of N, N'-bis(4-hydroxy-2-pentadecyl phenyl)  
                 pyromellitic diimide (II)  
5              Synthesis of poly(ester-imide)s
- Table I        Synthesis of poly(ester-imide)s from (II)  
II              Solubility data of poly(ester-imide)s.
- Figure 1       IR spectrum 4-amino-3-pentadecylphenol  
2              IR spectrum of (II)  
3              H-1 NMR spectrum of (II)  
4              C-13 NMR spectrum of (II)  
5              C-13 DEPT NMR spectrum of (II)  
6              IR spectrum of poly (amide-acid) (I)  
7              IR spectrum of partially imidised amide acid (chemical  
                 method)  
8              IR spectrum of partially imidised amide acid  
                 (Thermal treatment)  
9              IR spectrum of poly (ester-imide)C, (II + IPC)
