# Foreword

There are certain objectives of any University which are supposed to be the prime objectives, creation of new knowledge is one of them. This creation of new knowledge is possible only through research. Now a days and even in the past, Universities were rated at national and international level on specific criteria. Research and quality of research is one of the major criterion in these ratings.

Shivaji University has given due attention to this research area. If we go through the compendium it can be said that, very useful applied research along with fundamental research has been undertaken by many research scholars. It is always expected that the research should be socially relevant. It should be useful for the upliftment of the society, it should be aimed at solving the problems in the society. In this regard, this University has undertaken socially relevant topics for research.

It is more pertinent for the stakeholders of the Shivaji University to analyze and perceive the paradigm shifts and the impact of the research being carried out by our scholarly academic community at the juncture of “Golden Jubilee” year. With this basic objective, the research compendium is presented for the benefit of our fellow researchers and stakeholders so as to retrospect and introspect the impact of the research at the Shivaji University.

After globalization, the trade and commerce in the world, is changing with a very high speed. At national level also these changes are quite visible. Many business houses are now focusing on their research and development. The scholars in this University have chosen certain areas and certain problems related to trade, commerce and industry. During the initial two decades the efforts of the University were concentrated on expansion of higher education and affiliation of new colleges in different parts in the four districts then under its jurisdiction. The University consolidated its base in this phase by 'taking education to the people'. The decade of 1980s marked a major expansion, especially the growth of professional faculties like Engineering, Education, Management and Medicine. The last decade, which is the term of reference for the present 'research compendium' embodies the marching of the Shivaji University towards a quest of research brilliance. However, this expedition towards excellence is not a matter of an accident but it is the result of espousal of strategic framework of the University administration which is well taken by our research students, faculty and the stakeholders to strive their best in attaining the quality. Several steps have been taken to raise the standards of research so as to measure up to the global standards. In the last decade, several new domains have been explored in the rapidly emerging fields like Industrial Chemistry, Space Science and Applications, Environmental Science, Bio-chemistry, Sericulture, Computer Science, Environmental Bio-technology and initiating M. Tech. Courses in Energy Technology, Computer Science and

Engineering, Environmental Science and Technology, Electronics and Bio-technology in addition to the basic scientific disciplines. The faculties of Arts, Fine Arts and Social Sciences are also seen to be gearing up to meet the demands of the changing time. Establishment of Centres for Women's Studies, Gandhian Studies, and studies of Maratha History, Dr. Babasaheb Ambedkar Research and Development Centre, extension activities through Adult and Continuing Education and Centre for Community Development Lok Vikas Kendra are also exemplar of "Research for Development". Research in the University has been recognized at national and international level and University has received due credit in terms of grants. It should be note that research in languages, social sciences and humanities in general has covered many important topics. Even there are many topics about the relationship of the literature and society.

As far as the output of the research is concerned, the efforts of the University towards excellence are being recognized by the substantial grants received from funding agencies like UGC, DST, DBT, etc. One of the most important achievements of the University is that there are 7 Departments (Chemistry, Physics, Botany, Biochemistry, Mathematics and Statistics) are recognized under FIST(Funding for Infrastructure in Science and Technology) of DST, while 6 Departments(Physics, Economics, Sociology, Chemistry, Botany and English) are recognized under SAP(Special Assistance Programme) of the UG and one department (Physics) is recognized under ASIST. The Physics Department of the University is perhaps the only university department

in the country getting recognition under ASIST programme of the UGC. We have been constantly getting support from the apex bodies and also from the state government. Recently DST has given us grants worth Rs. 9 Crores under the PURSE program recognizing our research strength through the citations and impact factor of the research papers of our faculty. We are building a state of art data center from these funds. Even the State Government of Maharashtra has come forward and given handsome grants of Rs. 50 Crores to strengthen the University in its Golden Jubilee year.

The University has now taken special drive to strengthen the research activities in the University, at collegiate level and in the departments also. This compendium will be of great help to the young generation of research scholars for their further studies. This compendium will be a ready reference for the academicians involved in the research activities. This is an endeavor on the occasion of Golden Jubilee Year of the University.

**Prof. N. J. Pawar**  
Vice – Chancellor

## **INTRODUCTION**

The Shivaji University, Kolhapur was established in the year 1962 and 18<sup>th</sup> Nov. 2011 – 17<sup>th</sup> Nov. 2012 is the Golden Jubilee year of the University. Since its establishment, the University has been meeting the increasing needs of higher education in South Western part of Maharashtra. There are three districts under the jurisdiction of Shivaji University; Viz. Kolhapur, Sangli and Satara with 250 colleges affiliated to it. Considering the objectives of achieving excellence in higher education, research and extension activities, the growth of this University has been multidimensional during 49 years from its existence. In order to highlight the strength and growth of the research of this University, the Compendium of Research is being published at the occasion of ‘Golden Jubilee’ year of the Shivaji University. The Compendium will certainly benefit the potential research community to review the retrospective research and the spheres covered under it in this University.

The publication of present ‘Compendium of Research’, Volume III comprises of the documentation of Ph.D. theses submitted to Shivaji University during the period 1999 – 2010. It also highlights the statistical growth of total number of theses

(i)

submitted in this University during 1962 – 1910 in the chronological order. The earlier 02 volumes of this publication; viz. Vol. I. and Vol. II cover the periods, 1962 – 1986 and 1987 – 1998 respectively.

### **Salient Features of ‘Compendium of Research’, Vol. III.**

The research leading to Ph.D. degrees carried out in different subjects in the Post Graduate Departments of Shivaji University during the period 1999 – 2010 has been covered in the present volume which consists of 1332 total number of theses. On the occasion of the Golden Jubilee of Shivaji University, the 3<sup>rd</sup> Vol. ‘Compendium of Research: Doctoral Theses 1999 – 2010’ is being published on the University Foundation Day, 18<sup>th</sup> Nov. 2011. It was felt quite essential to bring out this volume to update the documentation work of Ph. D. theses submitted in this University during 1999 – 2010

### **Layout of Compendium:**

This 3<sup>rd</sup> volume covers 1332 titles of theses for which the Ph.D. degrees were awarded by the Shivaji University in the period 1999 – 2010. The compilation of theses titles along with names of Guides and Authors is divided into three parts as under.

1. Part I : Theses under various subjects.

(ii)

2. Part II : Departmental and Chronological Distribution of Theses.

3. Part III : Indices.

### **The Entry**

In Part – I, the entries of theses are arranged alphabetically according to authors' surnames under subjects falling under broad areas of knowledge; viz. Pure Science, Life Science, Applied Science, Social Science, Linguistics / Literature and Five Arts.

### **The Form of Entry**

The form of entry is as below :

- |                        |                                              |
|------------------------|----------------------------------------------|
| 1) Sr. No.             | 2) Name of the Author<br>(Surname, Forename) |
| 3) Title of the Thesis | 4) Year of Submission                        |
| 5) Name of the Guide   | 6) Accession Number                          |

In Part II, the distribution of theses is given as below:

- Subjectwise Growth of number of Theses During 1662 - 2010
- Yearwise Distribution of number of Theses During 1999 – 2010

- Subjectwise Distribution of number of Theses During 1999 – 2010

(iii)

- Facultywise Distribution of number of Theses During 1999 – 2010
- Percentagewise Distribution of number of Theses under each faculty During 1999 – 2010

In particular, this distribution of theses chronologically reveals the statistical growth of research carried out in various subjects in Shivaji University as well as the strength of different faculties in carrying out and research in various areas.

## **Indices**

In Part III, Indices are given as below :

1) Author Index      2) Guide Index      3) Title Index

These three Indices are arranged alphabetically which facilitate the users to retrieve any thesis by the name of Author, Guide and Title at their respective Serial Numbers.

While summing up, the editors gratefully acknowledge to thank Shri. Mahajan S. D., Shri. Deokar A. A., Shri Gurav C.N., Shri Matekar A.B., Smt. Suryawanshi P.K., Smt. Patil S.S., Shri. Gurav D.S., Shri. Khamkar R.D., Shri. Birje S.R. and Shri. S. M. Desai for their painstaking and meticulous work of compilation

and for preparing a neat typescript. We also thank to Shri. M. B. Bhostekar, Superintendent of the University Press for printing work.

The authorities of the University have a consistent and continuous keen interest in publication of this volume which is being released on the Occasion of Golden Jubilee Year of the University. We wish to put on record our deep sense of gratitude towards Hon. Vice – Chancellor, Prof. N. J. Pawar who constantly encouraged us in bringing out this volume. We also extend our thanks to the Officers of the University, Heads and teaching staff of the University Departments as well as the administrative staff of the University for their Co-operation. We wish to thank one and all.

Editors.

| Studies in substituted functional organic aromatic monomers and polymers therefrom                                                                                   | 102 |
| Studies In Synthesis And Characterization Of Polycondensation Polymers                                                                                               | 130 |
| Studies in the vam fungsi                                                                                                                                            | 321 |
| Studies of electrophoretic protein patterns and proteases activity during development of chilo partelhus (swinhoe)                                                   | 396 |
| Studies of molecular interactions in aqueous solutions involving 18 -crown -6                                                                                        | 110 |
| Studies of osmotic activity coefficient and volumetric properties of 1:1 electrolytes in aqueous and methanolic solutions containing 18-crown-6 at 25 <sup>0</sup> C | 106 |
| Studies of photosensing properties of thin films of CdMnSe system grown by a chemical route                                                                          | 213 |
| Studies of Systematics of the Genus Barleria L. (Acanthaceae) in India                                                                                               | 362 |
| Studies of the dynamics of the upper atmosphere at low latitudes by airglow techniques                                                                               | 279 |
| Studies of the microbiological aspects in production of pickles in western maharashtra                                                                               | 384 |
| Studies of thermodynamic and transport properties of 18- crown -6 in aqueous non-aqueous and aqueous electrolytic solution                                           | 46  |

|                                                                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies of thermodynamic properties in ternary aqueous solution containing supramolecules                                                                                                            | 81  |
| Studies of transition metal schiff base complexes                                                                                                                                                    | 38  |
| Studies on actinomycetes from saline soils of sangli district                                                                                                                                        | 371 |
| Studies on Anti-Microbial Effects of Selected Medicinal Plants                                                                                                                                       | 380 |
| Studies on approached for measur ability in automation of manufacturing process                                                                                                                      | 500 |
| Studies on aquatic actinomycetes from Krishna river in Satara district                                                                                                                               | 381 |
| Studies on aquatic actinomycetes from shivajisagar                                                                                                                                                   | 385 |
| Studies on Aquatic Nonstreptomyces Actinomycetes From Vasantsagar in Sangli District.                                                                                                                | 373 |
| Studies on bark of promising medicinal plant                                                                                                                                                         | 349 |
| Studies on biodiversity conservation in man groves of Ratnagiri and sindhudurg Districts                                                                                                             | 334 |
| Studies on biology of some endemic aquatic monocots                                                                                                                                                  | 315 |
| Studies on biometnanation of common tratable some weeds in combination with some agrobased organic substrctes and industrial wastes with emphasis on microbiological and pollution abatement aspects | 372 |

|                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on braconid parasitoids of agricultural pests                                                                    | 392 |
| studies on carbon doped superconducting magnesium diboride samples                                                       | 284 |
| Studies on charge transfer singlet quenching and exciplexes in the photoreaction of substituted anthracenes and anilines | 109 |
| Studies on chemical deposition and physico-Chemical properties of Cu-In Chalcogenide thin films                          | 250 |
| Studies on chemically synthesized antimony cadmium selenide thin films : Processing characterization and applications    | 237 |
| Studies on chemically synthesized antimony cadmium selenide thin films;Processing characterization and applications      | 242 |
| studies on computer simulation of least mean square algorithm and its different forms                                    | 454 |
| Studies on Control measures of White Woolly Aphid Ceratovacuna Lanigera Zehnt in Sugarcane                               | 2   |
| Studies on design and fabrication of radiation detectors with pseudo binary Hgx Cd1- x se thin films                     | 268 |
| Studies on Development of Magnetoelectric Composite Materials For Sensor Applications                                    | 209 |
| Studies on digital modulation-demodulation algorithms for software defined radios                                        | 471 |

|                                                                                                                                                                                                                                                  |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on diversity of insect fauna from<br>amba reserved forest                                                                                                                                                                                | 388 |
| Studies on drinking water pollution of<br>Kolhapur city                                                                                                                                                                                          | 147 |
| Studies on dye sensitized solar cells based<br>on nanostructured zinc oxide (ZnO) thin films<br>by an aqueous chemical route                                                                                                                     | 262 |
| Studies on economically important wild<br>cucurbits                                                                                                                                                                                              | 340 |
| studies on effect of concentration of<br>complexing agents on the properties of<br>deposited Bi <sub>2</sub> S <sub>3</sub> , Sb <sub>2</sub> S <sub>3</sub> and As <sub>2</sub> S <sub>3</sub> Sb <sub>2</sub> S <sub>3</sub> and<br>Thin films | 185 |
| Studies on effect of crystalite size of<br>chemically deposited CdSe ZnSe and CdSe-ZnSe<br>on photovoltaic properties.                                                                                                                           | 206 |
| Studies on Electrial and magnetic properties<br>of Ni <sub>0.8</sub> Cu <sub>0.1</sub> Cu <sub>0.1</sub> Fe <sub>2</sub> O <sub>4</sub> +Pb <sub>2</sub> rxTi <sub>1-x</sub> O <sub>3</sub> Me<br>composites                                     | 223 |
| Studies on electrical and magnetic behaviour<br>of Mg-Ni-Zn Cu ferrites                                                                                                                                                                          | 244 |
| Studies on electrical and magnetic properties<br>of Ni <sub>0.95-x</sub> Co <sub>x</sub> Cu <sub>0.05</sub> Fe <sub>2</sub> O <sub>4</sub> + BaTiO <sub>3</sub> Me<br>composites                                                                 | 273 |
| Studies on electrical and magnetic properties<br>of orthoferrite ferroelectric composites                                                                                                                                                        | 182 |
| Studies on electro chemical synthsis of MgB <sub>2</sub><br>films and their superconducting behaviour                                                                                                                                            | 198 |

|                                                                                                                                                       |     |

| Studies on Insects predators of agricultural<br>turalpests from Kolhapur District                                              | 6   |
| Studies on Jaggery manufacturing process and<br>development of process control unit for it                                     | 266 |
| Studies on magnetoelectric effect in<br>piezoelectric and ln sr mn o3 composites                                               | 291 |
| Studies on management of charcoal rot of<br>sweet potato                                                                       | 350 |
| Studies on management of some important<br>diseases of rose                                                                    | 370 |
| Studies on management of soybanrust                                                                                            | 339 |
| Studies on mechanical and optical properties<br>of magnesium oxide, aluminium oxide and their<br>co-deposited mixed thin films | 287 |
| Studies on microbial cytochrome P - 450                                                                                        | 21  |
| Studies on Natural Enemies of Silk worms with<br>speacial reference to class insecta                                           | 406 |
| Studies on nutrient cycling by some fuelwood<br>species                                                                        | 144 |
| Studies on package of practices for<br>cultivation of some important Indian<br>medicinal plants                                | 363 |
| Studies on Pc - baised multifunctional<br>programmable robot with six degrees of<br>freedom                                    | 467 |
| Studies on Physical properties of cu-mg cu-fe<br>amd mg-fe ferrities                                                           | 252 |

|                                                                                                                                                                                                                 |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| studies on physical properties of some<br>ferroelectric Ferrite composites                                                                                                                                      | 228 |
| Studies on preparation and (photo)<br>electrochemical characterzation of spray<br>deposited CdIn <sub>2</sub> S <sub>4</sub> thin films and their use<br>storage cells                                          | 277 |
| Studies on preparation and characterisation<br>of spray deposited antimony trisulphide and<br>antimony triselenide thin films and their use<br>in storage cells                                                 | 269 |
| Studies on preparation and characterization<br>of electrodeposited Europium chalcogenide<br>thin films                                                                                                          | 187 |
| Studies on preparation and characterization<br>of ZnFeS pellets and thin films                                                                                                                                  | 181 |
| Studies on preparation and charactrisation of<br>electrodeposited Bi <sub>2</sub> .Se <sub>3</sub> , Sb <sub>2</sub> Se <sub>3</sub> and AS <sub>2</sub> Se <sub>3</sub><br>thin films                          | 288 |
| Studies on preparation characterisation of<br>Thin films of V, VI group Compounds and Their<br>use in Electrochemical photrottaic (ECPV)<br>cells                                                               | 90  |
| studies on preparation properties and<br>applications of chemically deposited<br>heteropolyoxometalate polymeric thin films                                                                                     | 91  |
| Studies on preperation characterization and<br>electrical properties of Ni <sub>1-x</sub><br>CO <sub>x</sub> Fe <sub>2</sub> O <sub>4</sub> +Ba <sub>0.8</sub> pb <sub>0.2</sub> Tio <sub>3</sub> ME composites | 205 |

|                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on rechargeable storage cells formed with electrodeposited Fe doped cdse thin films                              | 265 |
| Studies On Rhizome Rot Management Of Turmeric                                                                            | 322 |
| Studies on soft electrochemical processing of MgB2 superconducting films                                                 | 285 |
| Studies on soil actinomycetes of Solapur District                                                                        | 269 |
| Studies on some Fuel wood species during nursery growth                                                                  | 342 |
| Studies on some fuel wood species during nursey Growth                                                                   | 341 |
| Studies on some physiological aspects of Jowar stem borer chilo partellus (Swinhoe)                                      | 443 |
| Studies on spray deposited lanthanum chalcogenides thin films                                                            | 167 |
| Studies on spray deposited tungsten oxide thin films doped with titanium and niobium for electrochromic devices          | 169 |
| Studies on spray pyrolyzed Cobalt oxide and Nickel oxide thin films and their Electrochromic properties                  | 203 |
| Studies on starch and its distribution pattern in mangroves with special refrence to three species of sonneratia         | 368 |
| studies on surface deformation of copper chalcogenide thin films by double expos-ure holographic interferometry techique | 230 |

|                                                                                                                               |     |
|-------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on surface deformation of silver chalcogenide thin films by double exposure holographic interferometry technique      | 267 |
| Studies on synthesis and characterization of Bicuvax eletrolyte for solid oxidefuel cell                                      | 246 |
| Studies on synthesis and characterization of MgB2n super conducating films by electrophoretic dposition techinique            | 195 |
| Studies on synthesis and characterizations of gadolinium doped ceria solid electrolyte                                        | 178 |
| Studies on synthesis and microwave properties of ti-basid superconducting films                                               | 208 |
| Studies on synthesis characterisation and applications of chemically deposited VIB,IIIA, VA,VIA group chalcogenide thin films | 89  |
| Studies on synthesis characterization electrical and magnetic properties of nanocrystalline lithium ferrites                  | 176 |
| Studies on the biology of common mormon papilio polytes linnaeus                                                              | 402 |
| Studies on the development of new synthetic methodologies                                                                     | 60  |
| Studies on the effects of natural piscicides onthe freshwater fishes                                                          | 429 |
| Studies on the fossil flora of the Sivaganga formation                                                                        | 367 |

|                                                                                                                                                        |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on the fossil flora of uttatur formation (Tamil Nadu)                                                                                          | 356 |
| Studies on the fossill flora of Uttatur formation                                                                                                      | 357 |
| studies on the hydrophobic properties of silica aerogels prepared using organosilane compounds of $R_nSiX_{4-n}$ type                                  | 244 |
| Studies on the impact of endosulfan and chlorpyriphos on the freshwater fish sarotherodon mossambicus (Peters)                                         | 409 |
| Studies on the mangrove environment of Achara Estuary                                                                                                  | 318 |
| Studies on the microbiological and biochemical treatment of textile industry wastewater                                                                | 386 |
| Studies on the performance of a few silkworm breeds of bombyx mori for suitability to western Maharashtra condition                                    | 294 |
| Studies on the phenomenon of malecular recognition: Thermodynamics and dielectric properties for aqueous and non-aqueous solutions of model compounds. | 78  |
| Studies on the physical properties of ferrite ferroelectric composites                                                                                 | 219 |
| Studies on thick and thin film over layed microstripline passive components in X and Ku Band                                                           | 270 |

|                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|
| Studies on thick films of substituted Lithium and Nickel nanoferrites for microstrip components                                      | 271 |
| Studies on transaction metal complexes of Thia zole ring containing ligands                                                          | 98  |
| Studies on vermicomposting of tendu leaf (Diospyros melanoxylon Roxb) rfuse with emphasis on microbiological and biochemical aspects | 376 |
| Studies on water reservoirs of Tasgaon tahsil (Maharashtra) with special reference to fishery development                            | 414 |
| Studies, Actinomycetes from Rankala lake and Kalamba lake of Kolhapur district                                                       | 374 |
| Study of administration of Kolhapur municipal transport with spceial reference to service efficiency                                 | 649 |
| Study of administrative aspects of colleges and rccognised institutions affiliated to shivaji university kolhapur                    | 628 |
| Study of agricultural diversification in the Kasari irrigation command                                                               | 744 |
| Study of agricultural labour in Kolhapur district                                                                                    | 711 |
| Study of agricultural productivity in sindudurg district a geographical analysis                                                     | 902 |
| Study of agricultural regulated makets in Satara district                                                                            | 725 |

|                                                                                                                           |      |
|---------------------------------------------------------------------------------------------------------------------------|------|
| Study of agricultueal diversi fication in<br>Kagwad agricultural range of karanataka state                                | 686  |
| study of autoboiile industry - its problems<br>and prospects                                                              | 576  |
| Study of bakery industry in belgaum district<br>(with special reference to financial and<br>marketing problems)           | 634  |
| Study of bakery industry in Kolhapur district<br>with special refrence to production,<br>financial and marketing problems | 558  |
| Study of bank marketing strategies of some<br>selected banks                                                              | 589  |
| Study of biochemical changes during treatment<br>of liver disorders with harbel drugs                                     | 22   |
| Study of Biochemical Evaluation of Thyroid<br>Function in Health and Diseases                                             | 538  |
| Study of Biochemical Markars as Dignostic and<br>Prognostic Factor of Cardio Vascular Diseases                            | 546  |
| Study of brick making industary in Kolhapur<br>district"                                                                  | 724  |
| Study of changing profile of the indian<br>pharmaceutical industry in post economic<br>reform period : (1991 onwards)     | 751  |
| Study of communication networks and<br>development in Kolhapur District                                                   | 1063 |
| study of computer education centres in<br>Kolhapur district with reference in computer<br>centre management               | 562  |

|                                                                                                                                                                           |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Study of consumers co-operative stores in rural and urban areas of Sangali Dist.                                                                                          | 596 |
| Study of control systems in Urban co-oprative banks in Sangli districts                                                                                                   | 613 |
| Study of co-operative departmental stores in western Maharashtra                                                                                                          | 772 |
| Study of corporate practices strategies, corporate governance and social resposibilitity in selected organizations in India                                               | 601 |
| Study of cost and productivity of co operative sugar factories in Kolhapur dist                                                                                           | 590 |
| Study of cytochrome P450 mediated reactions in microbes                                                                                                                   | 24  |
| Study of economic and non economic factors relating to motivational policies of education institutes and responses of teachers in selected technical education institutes | 635 |
| Study of economics of percolation tanks and their impact of agricultural development                                                                                      | 746 |
| Study of economics of water conservation in Khanapur taluka of snagli district                                                                                            | 687 |
| Study of effect of compensated off valency substitution in polycrystalline Ba Ti O <sub>3</sub> ceramic                                                                   | 217 |
| Study of electrical and magnetic properties of polycrystalline spinel ferrites                                                                                            | 236 |

|                                                                                                                           |     |
|---------------------------------------------------------------------------------------------------------------------------|-----|
| study of emerging trends in Indian capital market                                                                         | 673 |
| study of employee empowerment: a Sectorial analysis                                                                       | 550 |
| Study of employee involvement schemes and its role in implementation of ISO:9000 quality system                           | 637 |
| Study of employee morale and productivity in selected co-operative spinning mills of north karnataka                      | 607 |
| Study of evaluation of woman entrepreneurship development in Satara District                                              | 770 |
| Study of evalulation of walfare facilites in selected industries in Satara district                                       | 627 |
| study of export of horticultural produce with special reference to important fruit crops of maharashtra                   | 749 |
| Study of Female Agricultural Labour in Shirol Taluka (dist- kolhapur)                                                     | 776 |
| Study of fermentation parameters: A project towards optimization of ethanol production in <i>Saccharomyces cerevisiae</i> | 23  |
| Study of finance of higher education and achivement of students a case study                                              | 821 |
| Study of financial management of urban co-operative banks in Sangli district                                              | 551 |
| Study of foreign direct investment in Maharashtra 1991-2003                                                               | 719 |

|                                                                                                                                          |      |
|------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of fruit farming in maharashtra plateau                                                                                            | 896  |
| Study of fuzzy automata theory                                                                                                           | 158  |
| Study of geometry of subclasses of univalent functions                                                                                   | 161  |
| Study of grape processing and marketing in tasgaon taluka district sangli                                                                | 626  |
| study of halumatas malingaraya and his areas                                                                                             | 1218 |
| Study of Homocyst (E) ine metabolism and oxident stress in ischemic heart disease                                                        | 547  |
| Study of human resource development in vocational education institution in western Maharashtra with special reference to Satara district | 571  |
| Study of human resource development practices in selected milk processing organisations in western Maharashtra                           | 623  |
| Study of human resource development processes and practices in selected industrial units in kerala                                       | 572  |
| Study of human resource developments (HRD) practices in schedules, co-operative and public sector Banks in Kolhapur district             | 654  |
| Study of hypoglycemic activity and insulin like action of plant components in treatment of diabetes mellitus                             | 10   |
| Study of ideals in bck Algebras                                                                                                          | 164  |
| Study of ideals in lattices and semilattices                                                                                             | 163  |

|                                                                                                                                    |     |
|------------------------------------------------------------------------------------------------------------------------------------|-----|
| Study of immunomodulatory activity of Thalidomide                                                                                  | 523 |
| Study of international monetary system in relation to international liquidity                                                      | 760 |
| Study of job stress between different occupations and its relation with job attitude and job involvement                           | 579 |
| Study Of Kinetics And Mechanism Of Oxidation Reactions With Thallium (III )in Acidic medium                                        | 140 |
| Study of lipase activity durin emoryogenesis larval growth, metamorphosis and adult development of chilo partellus (Swinnoe)       | 433 |
| Study of lipid peroxidation and antioxidants in cardiovascular disease                                                             | 533 |
| Study of lipolytic activity in leucinodes orbonalis (guenee)                                                                       | 404 |
| Study of Maharashtra state road transport corporation(M.S.R.T.C) employees in Sangli district                                      | 750 |
| Study of management prombles of Mumbai Pune megacity express highway, An assessment and evalution                                  | 431 |
| Study of managerial and executive training programmes and their impact on productivity in selected industrial units in Maharashtra | 451 |
| Study of market penetration of solar equipments in satara district                                                                 | 618 |

|                                                                                                                                                              |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of marketing of turmuric in Sangali district problem and prospects                                                                                     | 667  |
| Study of marketing of vegetable products in shirol Taluka                                                                                                    | 733  |
| Study of marketing orientation and marketing problems of small scale industrial units with reference to Sangali-Miraj M I D C                                | 564  |
| Study of medically important candida species with special reference to different typing method and virulence testing in laboratary animals                   | 529  |
| Study of microstripline components as a sensing device for moisture contents in vegetation                                                                   | 191  |
| Study of Microwave properties of conducting polymer polypyrrole thin film and its composite                                                                  | 200  |
| Study of mucin histochemistry in stomach and large intenstine of human foetuses and comparision with mucins of adult normal and malignant epithelial tumours | 514  |
| study of multiresolution approaches to texture analysis and classification                                                                                   | 562  |
| <b>study of mundarragi shri Dr. annadanishwar maha swamiji samagra vachana sampad</b>                                                                        | 1220 |
| Study of oxidations by oxone and their mechanisms                                                                                                            | 74   |

|                                                                                                         |     |
|---------------------------------------------------------------------------------------------------------|-----|
| study of oxidative stress and antioxidant status in the pathogenesis of diabetic complications          | 531 |
| Study of oxidative stress and antioxidant status in women with breast cancer                            | 530 |
| Study of perfomance evaluation of selected computer education and training centres in kolhapur district | 633 |
| Study of performance evaluation of consumers co operative stores in Kolhapur District                   | 624 |
| Study of performance evaluation of institutions with mentally retared persons in Maharashtra            | 570 |
| Study of performance evaluation of selected banks in Satara district                                    | 616 |
| Study of performance evaluation of selected salary earners co-cooperative banks ltd, in Maharashtra     | 659 |
| Study of performance evalutation                                                                        | 605 |
| Study of personnel policies and practices in paper mills in Karnataka State                             | 557 |
| study of Personnel policies and practices in selected sugar Co-operatives in Southern Maharashtra       | 557 |
| Study of physical properties of oxide pyrochlores with emphasis on neutron diffraction                  | 218 |

|                                                                                                                                                          |      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of present status problems and prospects of computerisation in selected co-operative sugar factories in Western Maharashtra                        | 614  |
| study of primary agricultural co-operative credit societies in Solapur district                                                                          | 696  |
| Study of problems and Prospects of lease financial in India                                                                                              | 642  |
| Study of problems and prospects of worrpn worrpn entrepreneurs in Sangli district                                                                        | 671  |
| Study of problems and prospects of redgram(tur)crop with reference to cultivation, processing and marketing in Gulbarga district                         | 594  |
| Study of problems and prospects of small scale textile units in solapur city against managerial communication perspective                                | 660  |
| Study of problems and prospects of sugarcane harvesters and cane transporting labourers with special reference to Satara distrct                         | 602  |
| Study of problems and prospects of tourism industry in costal region of Karnataka state                                                                  | 632  |
| <b>study of psychological and sexual aspect in saudat husan mintos short-storues</b>                                                                     | 1325 |
| study of psychological Barriers encountred by adolescents during the classroom communication of alegebra in relation to their achievement in the subject | 849  |

|                                                                                                         |      |
|---------------------------------------------------------------------------------------------------------|------|
| Study of quality of work life in casting machine shop industry in Kolhapur                              | 563  |
| Study of quality of work life in small scale industries of Dharwad District                             | 641  |
| Study of redox reactions of transition metalions Co-ordinated to unsaturated heteropolytungstate anions | 59   |
| study of resttlment of exservicemen in Satara district                                                  | 646  |
| Study of right to information with special reference to Kolhapur city, Kagal and Radhanagari taluka     | 990  |
| study of role conflict among working women in Solapur city                                              | 1050 |
| Study of secular architerture of sturctural remain from excavated sites (6th CBC to 2nd cad) in India   | 1057 |
| Study of Seismo-Electromagnetic Emission and assciated ionospheric Perturbation                         | 251  |
| study of serum mucoproteins and antioxidant status in malignancies                                      | 544  |
| Study of Setumadhavrao Pagadi as a historian                                                            | 971  |
| Study of small Farmers and Agricultural labourers in Athani and Chikkodi talukas of Karnataka           | 780  |
| Study of small scale industries in Sangli Miraj Kupwad MIDC Area"                                       | 705  |

|                                                                                                                                                                                     |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of social and legal dimensions of atrocities against scs and sts in Kolhapur district                                                                                         | 146  |
| Study of Socio - econopmic condition of farmers in the context of new agricultural technology -A case study of Solapur district                                                     | 710  |
| study of socio psychological factors of the accused involved in crime against woman in kolhapur district                                                                            | 1066 |
| Study of some geometrical aspects in univalent and multivalent function theory                                                                                                      | 162  |
| Study of supervisory training and practices in seleted industries in Maharashtra                                                                                                    | 593  |
| Study of tax reforms in india with special reference to maharashtra and karnataka                                                                                                   | 721  |
| study of the community as a learning centre for school students                                                                                                                     | 788  |
| Study of the co-operative movement in Thane district                                                                                                                                | 748  |
| Study of the ecological attitudes cognitive aspect about ecological problems and the role of various agencies in creating environmental awareness among urban and rualal population | 848  |
| Study of The Envuronnemental Impact on Amphibians in Shindudurg & Ratnagiri Districts in Maharashtra.                                                                               | 149  |
| Study of the impact of human resource management on organizational performance of selected industries in almaty, Kazakhstan                                                         | 656  |

|                                                                                                                                             |      |
|---------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of the impact of social welfare measures on the development of the nomadic tribes in Kolhapur district                                | 1053 |
| Study of the impact of the medium of instruction at school level on the performance of individuals pursuing engineering and medical courses | 828  |
| Study of the Literary Representations of Family in Some Indian English Women Novelists in the Post independence Period                      | 1071 |
| Study of the management of small scale industry in Belgum city                                                                              | 670  |
| Study of the management of the issues leading to girl child acceptance and women atrocities Kolhapur district:A social marketing approach   | 630  |
| Study of the Workforce in Vegetable Marketing in Rural Area: A Case Study of Kavathe-Mahankal Taluka of Sangli District                     | 695  |
| Study of Thick Film Mn-Co-Ni-Fe-O NTC Ceramics and its Microwave Characteristics Using Microstrip Overlay Technique                         | 211  |
| Study of total quality management practices adopted in selected higher educational institutions in Southern Maharashtra                     | 573  |
| Study of training programmes in non-governmental organisations for staff development in Kerala                                              | 1039 |
| Study of triacylglycerol ester hydrolase of armyworm, mythimna separata (Walker)                                                            | 434  |

|                                                                                                                                                      |      |
|------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Study of turmeric processing and powder making industry in Sangli (Maharashtra)                                                                      | 708  |
| Study of urban co-operative banks in Belgawm district                                                                                                | 762  |
| study of Urban co-operative banks in kolhapur with special reference to customer service                                                             | 666  |
| Study of Warana irrigation project affected families in Kolhapur - district                                                                          | 1043 |
| Study of water resource management in Kolhapur district a social marketing approach                                                                  | 577  |
| Study of wildlife conservation and management at chandoli wildlife sanctuary                                                                         | 418  |
| Study of Women co-operative societies in Karnataka state                                                                                             | 552  |
| Study of working of selected agroproduce market committees in satara district with special reference to marketing of onions                          | 565  |
| Study on Biochemical aspects of lead exposur and toxicity                                                                                            | 19   |
| Study on consumerism its problems & prospects                                                                                                        | 581  |
| Study on Customer relationship management (CRM) practices in small scale industrial units with specific reference to food industry in Bangalore city | 561  |
| Study on emergence and development of women entrepreneurhip in Kolhapur district                                                                     | 663  |

|                                                                                                                                |      |
|--------------------------------------------------------------------------------------------------------------------------------|------|
| Study on entrepreneurship developement in<br>Khanapur-vita towns in Sangali distri                                             | 622  |
| Study on HRD management in selected co-<br>operative industrial units in kolhapur<br>district                                  | 556  |
| Study on Investment Behavior and patterns<br>among working women in Gulbarg district of<br>Karnataka states                    | 555  |
| Study on marketing of services by Indian<br>railways with : Special reference to south<br>central railways, Hubli Divison      | 598  |
| Study on metal/Hg/Besad<br>superconductor/semiconductor Heterostructures                                                       | 283  |
| Study on the problems of seasonal workers<br>working in selected sugar factories in<br>Kolhapur district                       | 644  |
| Study on the psycho social profile of only<br>childern in kolhapur                                                             | 1041 |
| Study on use of synthetic filter media in<br>course to fine filtration                                                         | 507  |
| Study on working of regional rural banks in<br>south Karnataka                                                                 | 575  |
| Study to expectations of the society from<br>colleges of education                                                             | 879  |
| Stylistic study of sarojini Naidy's poetry                                                                                     | 1107 |
| Sugarcane Grassy Shoot Phytoplasma Genome<br>Survey By Suppression Subtractive<br>Hybridization Approach With High Specificity | 29   |

|                                                                                                                                                                                                  |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Synthesis, characterization and application of mixed chalcogenide thin films                                                                                                                     | 44   |
| Supervisory process monitoring in CNC machines                                                                                                                                                   | 501  |
| Surface Deformation Study of Bi <sub>2</sub> S <sub>3</sub> , Sb <sub>2</sub> S <sub>3</sub> , As <sub>2</sub> S <sub>3</sub> thin films by double exposure holographic interferometry technique | 280  |
| Survey of anxiety level of secondary school women teachers and its effect on the personality and academic achievement of their children                                                          | 822  |
| Survey, Biology, Ecology of predatory spiders and their use in integrated pests management of sugarcane                                                                                          | 8    |
| Swarnjayanti Gram swarozgar yojana an assessment with reference to Kolhapur and Sangli district                                                                                                  | 730  |
| Sylvia plath : A critical study                                                                                                                                                                  | 1099 |
| Syntheses and evaluation of novel B - Lactam antibiotics                                                                                                                                         | 66   |
| Synthesis and Applications of Some New Macromolecules.                                                                                                                                           | 32   |
| Synthesis and applications of spin-labeled oligonucleotides and ionic liquids                                                                                                                    | 127  |
| Synthesis and biological activities of some new benzocondensed heterocycles containing two Nitrogen Atoms                                                                                        | 101  |

|                                                                                                                                                                              |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Synthesis and biological activity evaluation of novel 2 substituted benzimidazole derivatives                                                                                | 41  |
| Synthesis and biological activity of new bicyclic and tricyclic oxazines and thiazines                                                                                       | 121 |
| Synthesis and characterisation of chemically grown thin films of some transition metal chalcogenides                                                                         | 31  |
| Synthesis and characterisation of Fesb and Crsb substituted pby Ba (1-y) TiO <sub>3</sub>                                                                                    | 261 |
| Synthesis and characterisation of Fesb and Crsb substituted pby Ba (1-y) TiO <sub>3</sub>                                                                                    | 261 |
| Synthesis and characterisation of hydrophobic aerogels                                                                                                                       | 220 |
| Synthesis and characterisation of magnetoelectric composites                                                                                                                 | 249 |
| Synthesis and characterisation of $y$ (Ni <sub>0.5</sub> Zn <sub>0.3</sub> Co <sub>0.2</sub> Fe <sub>2.04</sub> + (1-y) Ba TiO <sub>3</sub> Ferrite-ferroelectric composites | 173 |
| Synthesis and characterization of (CoMg)Fe <sub>2</sub> O <sub>4</sub> and BT, BSN composites for magnetic electrical , and magnetoelectric properties                       | 221 |
| Synthesis and characterization of bicovox solid electrolyte thin films for fuel cell application                                                                             | 201 |
| Synthesis and characterization of LaFe and Slacr substituted pbo.5BaO TiO <sub>3</sub> Ferroelectres                                                                         | 247 |

|                                                                                                                                                                               |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Synthesis and characterization of metal complexes with schiff bases                                                                                                           | 45  |
| Synthesis and characterization of mixed transition metal dichalcogenide(TMDC) thin films                                                                                      | 56  |
| Synthesis and characterization of mixed-metal oxides containing 3d transition and lanthanide ions                                                                             | 70  |
| Synthesis and characterization of new polymeric membrances for pervaporation separation of aqueous organic mixtures                                                           | 136 |
| Synthesis and characterization of Ni <sub>0.7</sub> -xCu <sub>x</sub> Zn <sub>0.3</sub> Fe <sub>2</sub> O <sub>4</sub> + [0.5(BaTiO <sub>3</sub> )+ 0.5 ( PZT)] ME composites | 199 |
| Synthesis and characterization of organoluminphors for light emitting devices                                                                                                 | 113 |
| Synthesis and characterization of schiff base metal complexes                                                                                                                 | 99  |
| Synthesis and characterization of teos based aerogels obtained by two step sol gel process                                                                                    | 171 |
| Synthesis and characterization of transition metal complexes of schift bases                                                                                                  | 55  |
| Synthesis and characterization of transition metal heterocyclic-azo complexes                                                                                                 | 142 |
| Synthesis and characterization of zinc oxide Nanocrystalline Thin Films                                                                                                       | 196 |
| Synthesis and evaluation of pharmacological activities of some pyrimidine derivatives                                                                                         | 498 |

|                                                                                                                                                        |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Synthesis and physico-chemical studies of some mixed ligand 3d-transition metal complexes                                                              | 129 |
| Synthesis and QSAR study of heterocycles containing nitrogen and sulphur atoms.                                                                        | 68  |
| Synthesis and qsar study of some new pyrazole derivatives                                                                                              | 49  |
| Synthesis and qsar study of some new pyrimidine derivatives                                                                                            | 33  |
| Synthesis and spectroscopic studies of some substituted coumarin derivatives                                                                           | 67  |
| Synthesis of biologically active natural products and pharmacological active molecules by combinatorial chemistry                                      | 50  |
| Synthesis of biologically active nitrogen and oxygen containing heterocycles                                                                           | 123 |
| Synthesis of heterocyclic compounds containing two nitrogen atoms and their derivatives                                                                | 51  |
| Synthesis of pristine and doped niobium oxide thin film coatings and their electrochromism.                                                            | 241 |
| Synthesis of pyrimidinethiols polymers supported pyrimidinethiols and their applications in extraction / separation of metal ions from dilute solution | 57  |
| Synthesis of soft ferrites and developments of humidity sensing and F. D Switching devices                                                             | 453 |

|                                                                                                                                                              |     |
